underlying causes behind this surge in violence arguing that it is the result of the decline in American well being a growing distrust in institutions an increase in alcohol and drug abuse and escalating firearm sales Tuttle also shows how the homicide epidemic has hit different parts of the country notably there has been an increase in homicide in the Midwest that is 25 percent greater than in the rest of the country Through comprehensive analysis of the most recent crime data available Tuttle provides compelling evidence supporting these contentions illuminating the intricate relationship between societal decline and the homicide epidemic This book buildings on evidence that demonstrates the limited impact of police tactics on crime rates and finds little substantiation for the notion that police department defunding played a role in the rise of crime across American cities Crime Wave attempts to reframe the public debate beyond the current police only paradigm of explaining crime trends by examining the broader social and cultural forces that shape American violence
