Make sure you

- show all your work in solving the problem,
- clearly label your answer,
- tell in words how you solved the problem,
- tell in words why you took the steps you did to solve the problem, and
- write as clearly as you can.

To solve this problem first I, made 19 wheels because I could make the problem easier by putting an arrow and a B or T for bike 2 wheels or trike 3 wheels. Next I, made bikes but when I only had 3 wheels left I stopped because if I made another bike I'd only have 1 wheel left and there's nothing with 1 wheel. Then I, made the last 3 wheels a trike because 3 wheels would make a trike and if I made another bike I'd only have 1 wheel but we don't have any unicycles finally I wrote Bikes and Trike and put in my answer of 8 bikes and 1 trike

Extended Response Questions 3rd Grade Math:

Adopting the Beat of Term: An Mental Symphony within **Extended Response Questions 3rd Grade Math**

In a world eaten by monitors and the ceaseless chatter of instant communication, the melodic splendor and emotional symphony developed by the published term frequently disappear in to the backdrop, eclipsed by the persistent noise and interruptions that permeate our lives. Nevertheless, situated within the pages of **Extended Response Questions 3rd Grade Math** an enchanting fictional treasure brimming with fresh emotions, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that charming masterpiece conducts readers on a psychological trip, skillfully unraveling the concealed melodies and profound influence resonating within each cautiously constructed phrase. Within the depths with this emotional analysis, we shall examine the book is main harmonies, analyze its enthralling writing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
