Gates Of Fire Book Report Title: Gates Of Fire LCpl Yaccarine A. Jared Author: Steven Pressfield Publisher: Turtleback Books Published: 1999 This book is about the Spartans warrior culture and how it ties into the Marine Corps values, and the present day warrior culture of our Marine Corps. My opinion on this book is that it is a great and interesting read that captures the attention of the reader and ties in ideally to our Marine Corps values. It depicts perfectly on what it is to be a warrior whether it is past, present, or future.

I think that every Marine should read this book or at least look into the history of the Spartans and their dedication to their way of life and culture of war fighting. I strongly believe the book should remain on the Commandants reading list. Introduction: My book report is on "Gates of Fire" by Steven Pressfield. He was a prior Marine leaving the Marine Corps in 1966, he was inspired to write this book based of the resemblance he saw with the Marines he served with and the ones he met presently and the warrior culture of the Spartans.

His book has been taught in multiple places of military significance including the Marine Corps Basic School at Quantico, and it is added to the curriculum of the Naval War College. The book itself is about the legendary battle of Thermopylae and the three hundred Spartans who fought that battle knowing that the outcome was certain death. When reading the book you can clearly tell the levels of Honor, Courage, and Commitment these men had, and how they were willing to sacrifice everything for their homeland.

After reading this book readers will clearly see how the author found the link between the Spartans, and the Marine Corps. Body: The book starts off describing the very basics of the Spartan culture, what makes them Spartans, how they are made, and the trials they had to face to earn their place amongst the other Spartans. When Spartans are born from the day of birth they are inspected, the ones who seem weak or unfit are killed to preserve the warrior culture. From a early age the children are taken away from their parents and put through a series of trials, one of which is to kill a slave.

At a young age the children are already forced to kill, steal, and survive in a merciless environment that in the future will give them the mental fortitude to be amongst the greatest warriors known to history. At the age of eighteen they are thrown into the wilderness to fend for themselves, with nothing but will they must do this, and if they can make it back to their society they will be official Spartans. The main character of the book King Leonidas is the one who ultimately decides to take his warriors to the Gates of Fire to delay the Persian army of King Xerxes as long as possible.

He selects three hundred of his finest Spartans and departs knowing very well that they will
