Grade Midyear Exam Paper Natural Science:

Assessment for Excellence Alexander W. Astin, Anthony Lising Antonio, 2012-07-13 The second edition of Assessment for Excellence arrives as higher education enters a new era of the accountability movement In the face of mandates such as results based funding and outcomes based accreditation institutions and assessment specialists are feeling increasingly pressured to demonstrate accountability to external constituencies The practice of assessment under these new accountability pressures takes on special significance for the education of students and the development of talent across the entire higher education system This book introduces a talent development approach to educational assessment as a counter to prevailing philosophies illustrating how contemporary practices are unable to provide institutions with meaningful data with which to improve educational outcomes It provides administrators policymakers researchers and analysts with a comprehensive framework for developing new assessment programs to promote talent development and for scrutinizing existing policies and practices Written for a wide audience the book enables the lay reader to quickly grasp the imperatives of a properly designed assessment program and also to gain adequate statistical understanding necessary for examining current or planned assessment policies More advanced readers will appreciate the technical appendix for assistance in conducting statistical analyses that align with a talent development approach In addition institutional researchers will benefit from sections that outline the development of appropriate student databases *Resources in Education*, 1994

Handbook for Teaching Introductory Psychology Michelle Rae Hebl, Charles L. Brewer, Ludy T. Benjamin, Jr., 2001-08-01 Like its predecessors Volume III of the Handbook for Teaching Introductory Psychology provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom It contains an organized collection of articles from Teaching of Psychology TOP the official journal of the Society for the Teaching of Psychology Division 2 of the American Psychological Association Volume III contains 89 articles from TOP that have not been included in other volumes Another distinction between this volume and its predecessors is its emphasis on testing and assessment The book is divided into two sections Section One Issues and Approaches in Teaching Introductory Psychology contains 52 articles on critical issues such as how to approach the course understanding students interests perceptions and motives students existing knowledge of psychology including their misconceptions a comparison of introductory textbooks and tips on how to evaluate them test questions and student factors affecting exam performance an overview of different forms of feedback giving extra credit and how to deal with academic dishonesty Section Two consists of 37 articles that present demonstrations class and laboratory projects and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline This section is organized so as to parallel the order of topics found in most introductory psychology textbooks Intended for academicians who teach the introductory psychology course and or oversee grad assistants who teach the course all royalties of the book go directly to the Society for the
