**Desire in Ashes** Simon Wortham, Chiara Alfano, 2015-12-17 The indebtedness of contemporary thinkers to Derrida's project of deconstruction is unquestionable whether as a source of inspiration or the grounds of critical antagonism This collection considers how best to recall deconstruction Rather than reduce it to an object of historical

importance or memory these essays analyze its significance in terms of complex matrices of desire provoked in this way deconstruction cannot be dismissed as dead nor unproblematically defended as alive and well Repositioned on the threshold of life death deconstruction profoundly complicates the field of critical thought which still struggles to memorialize inter or reduce the deconstructive corpus to ashes      *The Schiele Slaughters* Alessandra Comini,2015-02-02 Retired art history professor Megan Crespi an expert on the Expressionist artist Egon Schiele is called to Vienna to help solve the brutal murder of a museum night watchman whose naked cadaver was propped up in the same pose as the nude self portrait by Schiele above him A series of attacks relating to Schiele occur ranging from censoring of his nude figures private parts with spray paint to desecration of his burial site Amid restitution lawsuits and murderous competing gallery owners Megan s investigations are endangered by the fanatical Grand Master of a secret sect dedicated to the obliteration of obscenity Her own life in danger the twisting Schiele trail leaves multiple corpses in its wake and leads Megan from conniving Vienna to remote Kaliningrad in Russia to ancient Krumau in Bohemia and bustling Milan in Italy as she hunts for a possible hidden trove of major Schiele paintings What she discovers is undreamt of and leaves the Schiele world stunned and covetous Includes Readers Guide      **Literary Desire** Talia Mercer, AI,2025-05-05 Literary Desire explores the multifaceted nature of human desire as depicted in literature across various cultures and historical periods Challenging the notion of desire as a universal constant the book argues that it is a socially and historically contingent phenomenon shaped by power gender and class The analysis connects literary representations with broader cultural understandings of desire offering a unique perspective on how societal values influence individual aspirations Did you know that literary traditions have grappled with the question of desire for centuries Or that understanding how desire is shaped by culture allows us to critically assess the values and assumptions embedded within literary texts The book examines the construction of desire within specific cultural contexts the ethical implications of pursuing or suppressing desire and the relationship between desire and narrative structure It progresses from establishing a theoretical framework in the introduction to exploring specific manifestations of desire in different literary traditions such as classical Greek tragedy and modern novels Each chapter focuses on close readings of selected texts analyzing how desire functions within the narrative and what it reveals about the characters and their world supported by literary theory historical context and philosophical insights The conclusion explores the practical implications of this study such as understanding the power of motivations behind certain desires      *The Lazy Man's Guide to Grappling* Bakari Akil II, Ph.D.,2017-08-05 The Lazy Man s Guide to Grappling is a hilarious look at what some grapplers do to cope in the hard charging grappling environment It exposes the truth about grapplers and grappling that is never discussed but everyone thinks about We are all guilty of some of the Lazy Man s practices to varying degrees This book exposes The Lazy Man s Takedowns The Truth about Warmups Magic Funk Taps Credit Vision Injured Grapplers Psyche Out Methods Superhero Taps Blue Belt Heaven Grappling Dummy and Heavy Bag Secrets and so much more From the author

This is not a how to book So there won't be any pictures demonstrating techniques If there were I would lose all credibility It is more of an approach towards grappling my overarching philosophy I will not be sharing my life story and detailing all of my wins at NAGA or Grapplers Quest or how I trained five hours a day for six years to get where I am now I am just a man who loves grappling but not all of the extras that are attached to it If I could get up in the morning and just learn a technique and grapple for about 20 minutes then life would be golden I am like BJ Penn who popularized the term Just Scrap I feel the same way Just Grapple

*Sexual Alias. Mediatization of Desire in Social Network Services* Henry Louis Sterling Appleyard, 2018-07-18 Essay from the year 2017 in the subject Communications Public Relations Advertising Marketing Social Media grade A University of Auckland language English abstract The relationship between sexuality and communication technologies is changing In media life people are increasingly seeing themselves and others through the social network service Social media users sign up their name age and sex before they have access Once attained the user is afforded a configurable networked self that is voluntarily serviced with and within the social network With growing aspects of use especially in younger people to communicate their own life story the SNS poses and imposes differential user experiences rooted in media logics For media to embed its logic into social sexual practice it must contend with deep human emotions or sub processes that are at the core of psychological development how people understand themselves how do they think of themselves do they label themselves and do they announce or enact that identity to an audience or in a social setting A person's sexuality then their gender expression and identity are part of one's developed consciousness Principled archetypes the socio cultural norms and values of femininity and masculinity are violently in flux Under the integration of social media into social life the psychological recognition and reconfiguration of one's sex i.e. their sexual identity orientation fantasies feelings behaviors and desires are becoming part of an assemblage of interdependent media networks As Walgrave et al lament such logistics change how the characteristics of SNSs accommodate needs inherent to adolescent development which may explain why adolescents have rapidly and enthusiastically integrated SNSs into their daily lives The evolving characteristics of SNSs are not only dependent on active interactional and communicative needs executed within the service but also produce differential user experiences based on the information supplied with the service The paper investigates this phenomenon specifically how age location and or sex effects the Facebook SNS user experience to explore the relatively uncharted territory of how new media logics symbiotically service people's desires as a form of media embedded practices

**Embracing Desire** Louis Roy,2019-07-10 In this book Louis Roy criticizes two different attitudes concerning our desires either we are wary of our desires because of their potentially negative effects or we try to satisfy as many of them as we can Both attitudes focus on desires without examining the issue of desire The solution is neither to suspect nor to multiply our various desires but rather to intensify desire Once desire has intensified we can accept our desires and identify some of them as priorities for us to fulfill We will then proceed not only with motivation but also with detachment and therein lies the key to happiness Any human being wishes to be granted personal value as a unique individual worthy of respect And we long to be desired by the person or persons we desire Moreover because of our infinitude we are able to wonder if an infinite being whom we respect without reserve can find us desirable The author explores this basic concern and describes the relationship of mutual desire between Jesus and his first disciples Thus this book will appeal to educated readers interested in spirituality psychology literature catechesis and pastoral ministry

**Judah's Desire and the Making of the Abrahamic Israel** Hong Guk-Pyoung, 2024-07-01 In this refreshing exploration of Judah's identity formation, the emphasis is placed on the psychological underpinnings of Judah's sentiments towards Israel, aiming to illuminate the significance of Judah's appropriation of Israel. Richly contextual, this book draws parallels observed in Asian contexts, notably those of North and South Korea and China, with its marginal Others. Central to the thesis is that Judah's perceived inferiority to Israel played a crucial role in its quest to appropriate Israel's legacy and identity. Adopting a functionalist lens, Judah's rewriting of Israel's ancestral past is examined. The Abraham and Jacob traditions are understood as competing identity narratives serving as critical discursive tools to construct their pasts. The study scrutinizes how the southern Abraham tradition fundamentally reoriented the Jacob tradition. North Israel's standalone ancestral myth, set against the broader canvas of continued efforts to redefine and embody Israel within the history of Judeo-Christian religions, this exploration underscores how Judah's pivotal appropriation of Israel has established a paradigm for all future endeavors of becoming Israel.

Value, Reality, and Desire Graham Oddie, 2005-03-10 *Value, Reality, and Desire* is an extended argument for a robust realism about value. The robust realist affirms the following distinctive theses: There are genuine claims about value which are true or false; there are facts about value. These value facts are mind independent; they are not reducible to desires or other mental states or indeed to any non-mental facts of a non-evaluative kind. And these genuine, mind-independent, irreducible value facts are causally efficacious. Values quite literally affect us. These are not particularly fashionable theses and taken as a whole they go somewhat against the grain of quite a lot of recent work in the metaphysics of value. Further against the received view, Oddie argues that we can have knowledge of values by

experiential acquaintance that there are experiences of value which can be both veridical and appropriately responsive to the values themselves Finally these value experiences are not the products of some exotic and implausible faculty of intuition Rather they are perfectly mundane and familiar mental states namely desires This view explains how values can be intrinsically motivating without falling foul of the widely accepted queerness objection There are of course other objections to each of the realist s claims In showing how and why these objections fail Oddie introduces a wealth of interesting and original insights about issues of wider interest including the nature of properties reduction supervenience and causation The result is a novel and interesting account which illuminates what would otherwise be deeply puzzling features of value and desire and the connections between them
