Improving Financial Performance with the Nuance Dragon® Ambient eXperience™

Reducing documentation time, gaining additional revenue

Provider burnout has become a \$4.6 billion a year problem, resulting in patient and provider churn and a growing physician shortage due to those leaving the profession. Reducing the time that physicians spend documenting patient visits can help decrease fatigue and burnout, as well as allow physicians more time to spend with patients.

The Nuance Dragon Ambient eXperience (DAX™) is a cloud-based, HITRUST® (HIPAA) certified ambient clinical intelligence solution from Microsoft + Nuance that creates accurate clinical documentation of patient visits. Nuance DAX documentation incorporates CMS E/M guidelines and

clinical integrity standards from the Association for Healthcare Documentation Integrity (AHDI).

As physicians have more choices about where to practice and patients have more options about where to receive care, Nuance DAX can help healthcare organizations generate additional revenue and avoid the costs associated with recruiting and hiring due to provider churn.

Read this whitepaper and discover the financial benefits of Nuance DAX
