longer sustainable Even so such transformation cannot be made without Clearing the Bull moving beyond old and tired orthodoxies in order to properly diagnose the problem Drawing on more than twenty years of experience in banking author Jonathan Ledwidge shows how the financial crisis exposed the industry s poor system of values leaving it mired in conflict with its human environment Specifically this includes how poor leadership virtually unmanageable organizations dysfunctional suppliers infuriated customers alienated employees and dissatisfied communities all arise from the inability of banks to understand that values are more important than valuations As a result there is now a total disconnect between banks and their human environment That disconnect cannot be fully addressed by conventional solutions involving more regulations more governance and more controls Banks have a very human problem and thus by definition what they require is a human transformation Clearing the Bull provides both a clear diagnosis as well as a detailed and comprehensive roadmap for the banking industry s human transformation and while doing so it remains totally engaging and accessible to bankers and non bankers alike

The Platform of Agile Management Willy Sussland, 2017-09-11 Facing the amplitude and the acceleration of changes management must also change and it must become alert adaptable and agile The children of the Internet the likes of Google Amazon Facebook and Tesla are born agile and they challenge the traditional organizations that have long lost their original agility The latter may have innovated externally i e on the market oriented part of their organization Yet internally their mindset their models and their methods have remained tightly trapped in traditional tenets Confronted with the need for deep changes an increasing number of business leaders launch change management programs yet conceived and carried out in traditional ways up to 70% of them result in partial or total failure Management cannot innovate itself it needs people with the right

motivation and with the right mind set However stuck in the old system people can only keep working in the old ways and means Thus the leadership must start by replacing a traditional system with a new and agile one which will unbridle entrepreneurship The Platform of Agile Management and the Program to Implement It combines 3 principles that help to innovate thinking 3 paradigms to innovate behaviours and 3 practices to innovate and to accelerate actions The proposed platform is comprehensive connective and congenial It is implemented with an agile program that combines top down push by the leadership with the bottom up pulled by the people Then the proposed platform will generate continuous improvements and innovations of the performance drivers
