Figure 1. Schematic diagram of the experimental setup. The subjects were seated in a dimly lit room and viewed the screen through a mirror. The screen displayed the target and the starting position of the hand. The hand was moved from the starting position to the target position. The distance between the starting position and the target position was 10 cm. The hand was moved at a constant velocity. The time taken for the hand to reach the target position was recorded. The experiment was controlled using a personal computer.
