Nuclear Science Abstracts, 1975 *Full Medical* Steven M. Moore, 2006-11 It is 2053 We are halfway into the bioengineering century Miraculous medical advances have extended life spans for some but the correlation between health and wealth existing even at the turn of the century has become so extreme that many in the United States cannot afford full medical coverage Periodic terrorist attacks are the aftermath of three wars in the Middle East These problems and others have poisoned the body politic A small group of well meaning government and industry leaders who believed they had the right answers to these problems came together twenty years earlier to ensure that they would stay in power as long as possible This novel is about how that plan goes terribly wrong The plan starts unraveling when three young people escape from a secret government laboratory One makes it all the way to the Philippines The other two do not even get out of the country All three are young look alikes of important public figures The cover up begins with a murder in Maryland

An e zine crime reporter a Boston cop and an expert in transplant rejection come together to solve the mystery As the maelstrom sucks them in it is not clear which government agency can be trusted nor how high the conspiracy goes In Full Medical the reader is introduced to a frightening future world that is extrapolated from today s post 9 11 events
