

POLICE OFFICER BIOGRAPHY EXAMPLES

Officer Keane Reeves has been serving the ninth district of the city of Warhol in the state of Georgia for over ten years. He was first inspired to become a police officer after witnessing two officers beating a suspect that they had just arrested, simply out of spite for having caught him. Officer Reeves was just a child at the time, but he vowed to become a police officer that would be able to reshape the department and bring true justice. His biggest inspiration was his mother, who encouraged him to be a protector of the people, rather than protecting himself from the people.

A graduate of Percy High School in Warhol, Officer Reeves is a native to Georgia and the Warhol area. After graduating high school, Officer Reeves obtained an associate's degree in Paralegal Studies from Roanoke County Community College. He worked for two years as an assistant to a criminal lawyer, hoping to gain knowledge about the legal system. He left his position in 2004, disturbed at the amount of injustice he had observed in his work. He joined the ninth district city police later that year, and demonstrated himself to be a calm and fair officer who was trusted by the community.

In 2015, he was promoted to Deputy, and he began to make changes in the structure of the police department. He implemented the use of body cameras for all officers, and insisted on accompanying a random officer each night on making rounds across the city. During his tenure as deputy, the number of complaints received about police conduct have dropped by half. Officer Reeves is currently working on an outreach mission to unite the community and police officers in informal discussions, in order to restore trust in law enforcement over recent tensions in the community.

Autobiography of the Late Col. Geo. T.M. Davis George Turnbull Moore Davis, 1891 **Race, Crime, and Policing in the Jim Crow South** Brandon T. Jett, 2021-07-07 Winner of the Florida Book Award general nonfiction category

Throughout the Jim Crow era southern police departments played a vital role in the maintenance of white supremacy. Police targeted African Americans through an array of actions including violent interactions, unjust arrests, and the enforcement of segregation laws and customs. Scholars have devoted much attention to law enforcement's use of aggression and brutality as a means of maintaining African American subordination. While these interpretations are vital to the broader understanding of police and minority relations, Black citizens have often come off as powerless in their encounters with law enforcement. Brandon T. Jett's *Race, Crime, and Policing in the Jim Crow South* by contrast reveals previously unrecognized efforts by African Americans to use, manage, and exploit policing. In the process, Jett exposes a much more complex relationship suggesting that while violence or the threat of violence shaped police and minority relations, it did not define all interactions. Black residents of southern cities repeatedly complained about violent policing strategies and law enforcement's seeming lack of interest in crimes committed against African Americans. These criticisms notwithstanding, Blacks also voiced a desire for the police to become more involved in their communities to reduce the seemingly intractable problem of crime, much of which resulted from racial discrimination and other structural factors related to Jim Crow. Although the actions of the police were problematic, African Americans nonetheless believed that law enforcement could play a role in reducing crime in their communities. During the first half of the twentieth century, Black citizens repeatedly demanded better policing and engaged in behaviors designed to extract services from law enforcement officers in Black neighborhoods as part of a broader strategy to make their communities safer. By examining the myriad ways in which African Americans influenced the police to serve the interests of the Black community, Jett adds a new layer to our understanding of race relations in the urban South in the Jim Crow era and contributes to current debates around the relationship between the police and minorities in the United States.

The Cowboy Capitalist Charles van Onselen, 2018-04-20 The Jameson Raid was a pivotal moment in the history of South Africa linking events from the Anglo Boer War to the declaration of the Union of South Africa in 1910 For more than a century the failed revolution has been interpreted through the lens of British imperialism with responsibility laid at the feet of Cecil Rhodes Yet the raid was less a serious attempt to overthrow a Boer government than a wild adventure with transnational roots in American filibustering In The Cowboy Capitalist renowned South African historian Charles van Onselen challenges a historiography of over 120 years locating the raid in American rather than British history and forcing us to rethink the histories of at least three nations Through a close look at the little remembered figure of John Hays Hammond a confidant of both Rhodes and Jameson he discovers the American Old West on the South African Highveld This radical reinterpretation challenges the commonly held belief that the Jameson Raid was quintessentially British and in doing so drives splinters into our understanding of events as far forward as South Africa's critical 1948 general election with which the foundations of Grand Apartheid were laid

Ethnography Jenny Fleming, Sarah Charman, 2023-01-31 Ethnography has a long history in the humanities and social sciences and has provided the base line in the field of police studies for over 60 years We have recently witnessed a resurgence in ethnographic practice among police scholars and this Handbook is a response to that revival Students and academics are returning to the ethnography arena and the study of police in situ to explain the evocative worlds of the police The list of ethnographic sites is vast and all have fed the rejuvenation of ethnographic endeavour Together they suggest innovation theoretical depth broad geographical boundaries multi site experiments and multi disciplinarity all of which are central to the exploration of police and policing in the twenty first century This Handbook encapsulates the revival of police ethnography by exploring its multidisciplinary field and cataloguing the ongoing ethnographic work It offers an original and international contribution to the field of police studies and research methods providing a comprehensive and overarching guide to police ethnography We see the previous classics in every page and still note the influence of the early ethnographers At the same time we see the innovative breadth and diversity of these narratives The aim of this Handbook is to highlight the mosaic that is police ethnography at a point in time and note with pleasure its contribution to the field once more

Law Without Justice Paul H. Robinson, Michael T. Cahill, 2006 This book is a for thoughtful legislators and all the rest of us who seek justice for persons charged with crimes proportional punishment of the guilty and exculpation of the morally blameless The authors demonstrate with remarkable lucidity how and why the criminal law sometimes deliberately sacrifices justice for other goals and they provide thoughtful controversial and often persuasive suggestions on how we can redesign our legal system to give people their just deserts In the book the authors offer an account of how the American criminal justice system fails to give offenders their just deserts in a number of different contexts From the refusal to allow partial exoneration for defenses like mistake of law and insanity to the practical limitations on detecting and prosecuting offenders they also demonstrate through discussions of actual cases the many areas where criminal sentencing fails to do justice
