Learning to be Human: The Educational Legacy of John MacMurray Michael Fielding, 2016-04-14 The educational writings of John Macmurray one of the finest 20th century philosophers of his generation have a special relevance for us today In similar circumstances of international crisis he argued for the central importance of education addressing fundamental issues of human purpose how we lead good lives together the emphasis on wisdom rather than knowledge alone the advancement of a truly democratic culture and the overriding importance of community in human flourishing This remarkable collection of articles from leading international scholars includes the hitherto unpublished John Macmurray lecture Learning to be Human and brings together invited contributions from a range of fields and disciplines e g philosophy of education moral philosophy care ethics history of education theology religious education future studies and learning technologies and a number of countries across the world e g Australia the UK and the USA Countering overemphasis on technique and its typical separation from wider human purposes emblematic of much of our current malaise this book asks what it might mean to take the education of persons seriously and how such a perspective helps us to form judgments about the nature and worth of contemporary education policy and practice This book was originally published as a special issue of the Oxford Review of Education Learning to Be Human Michael Fielding, 2020-12-18 The educational writings of John Macmurray one of the finest 20th century philosophers of his generation have a special relevance for us today In similar circumstances of international crisis he argued for the central importance of education addressing fundamental issues of human purpose how we lead good lives together the emphasis on wisdom rather than knowledge alone the advancement of a truly democratic culture and the overriding importance of community in human flourishing This remarkable collection of articles from leading international scholars includes the hitherto unpublished John Macmurray lecture Learning to be Human and brings together invited contributions from a range of fields and disciplines e g philosophy of education moral philosophy care ethics history of education theology religious education future studies and learning technologies and a number of countries across the world e g Australia the UK and the USA Countering overemphasis on technique and its typical separation from wider human purposes emblematic of much of our current malaise this book asks what it might mean to take the education of persons seriously and how such a perspective helps us to form judgments about the nature and worth of contemporary education policy and practice This book was originally published as a special issue of the Oxford Review of Education Music Education on the Verge Judy Lewis, Andrea Maas, 2022-08-08 In March 2020 the COVID 19 pandemic swept the world causing physical emotional economic and social upheaval in every part of the globe It also catalyzed a renewed interrogation by music education faculty in higher education of philosophies and practices that had long gone unexamined Music Education on the Verge Stories of Pandemic Teaching and Transformative Change is a collection of

narratives by music teacher educators describing how they responded to the disruption of the COVID 19 pandemic with and for their students Through these stories the authors step back and reflect on the events challenges triumphs and innovations discovered as they prepared the next generation of music educators in this time of crisis They tell stories of reexamining old frameworks discovering new affordances of technologies humanizing pedagogy deepening culturally responsive and sustaining experiences and creating space for democratic practices Each chapter offers examples of innovative music pedagogy that can be adapted and applied by music educators and music teacher educators with their students Collectively they paint a picture of possibilities challenging music teacher educators and educators in all fields to seek out openings and pursue pedagogies of change as we move forward into a post pandemic world

Becoming a Human Engineer Alan

Cheville,2023-11-25 Despite the importance of engineering and technology in economic social and other aspects of our lives what it means to develop as an engineer and how this is to occur is not widely discussed *Becoming a Human Engineer* explores the moral and ethical challenges of educating engineers through the philosophical lens of personalism a branch of philosophy that puts the person first seeing human growth and development as central to good Building from the philosophy of the 20th century philosopher John Macmurray this book explores how ethics and education intersect through a continuous cycle of action and reflection By pulling together disparate and wide ranging topics across engineering education several promising areas of future work are identified Engineering methods and ways of reflection are deeply embedded in engineering education to the extent that they may interfere with becoming a person A focus on specific knowledges must complement rather than distract from developing the habits of mind necessary for engineers to adapt to a changing world Providing meaningful experiences and explicitly focusing on developing multiple ways to reflect on these experiences are shown to be critical for the holistic development of engineers as persons

Renewing the Self Benjamin J. Wood,2017-05-11

Over the last decade the UK has witnessed a stunning resurgence of religious engagement in both politics and civil society From the social pluralism of New Labour to the rise of post liberalism the recovery of religious sensibilities in areas like education and welfare continues to have a significant effect on the content of political debate on both the Right and Left What unites these diverse projects is an effort to recover a neglected form of selfhood Less acquisitive more relational this vision of human identity has led politicians and policy makers to reject avaricious and atomist accounts of the self in favour of richer accounts of citizenship and common life What do these latter models mean for citizens and communities This book analyses the roots significance and future of these developments through the lens of contemporary Christian communities By drawing on disciplines as diverse as philosophy theology history economics and political theory *Renewing the Self* reflects on the prospects and challenges of this rich self in a globalised and rapidly changing world

Learning To Be Human The Educational Legacy Of John Macmurray: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have captivated audiences this year.

Learning To Be Human The Educational Legacy Of John Macmurray : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed.

Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting.

These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
