

The HMB 095 is a further development of the popular HMB 090, but it is 10-ton heavier. Both cranes look very similar, but that's where the similarities cease.

The HMB 095 features a new, low-headroom boom system with a separate telescopic cylinder on each extension, yet have done away with all moving on the outer boom and extensions and reduced the need for a hook attachment to just one – on the outer extension. All this leads to easier handling in confined areas. And being larger slides consistently reduce friction and give smoother boom action.

The HMB 095's working geometry has been optimized, resulting in better lifting capacity – in the upper lifting range, capacity has been boosted by over 20%. What's more, the 095 has an amazing close-in lifting height.

The HMB 095 is a modern general cargo crane in the 10-ton capacity class. It offers excellent maneuverability. Choose between cruise controls, HMB's well-known 360-degree version with the new computerized 180 or 360-degree advanced-computer with HMB's new 180 and 360-degree of control.

Manual For Hiab 095 Crane
