The Business Environment Paul Wetherly, Dorron Otter, 2014 Designed specifically for students new to the study of business this book explores the global range of environments within which business operates Wetherly and Otter encourage critical thinking via a unique themes and issues approach which reflects the integrated dynamic reality of businesses today

Corporate Social Responsibility – Sustainable Business Rae Lindsay, Roger Martella, 2020-06-17 In a dramatic departure from its voluntary origins corporate social responsibility CSR is rapidly shifting to hold multinational companies accountable for more than traditional shareholder performance This CSR movement is embracing new environmental social and governance ESG frameworks that both promote global sustainability goals and enhance accountability for negative impacts businesses can have on planet and people This collection of essays by leading businesspeople international civil servants legal practitioners academics and other experts offers a forward looking and pragmatic perspective that illuminates the major themes in this movement towards increasingly sustainable transparent and accountable business practices The collection shows how CSR has evolved to account for societal pressures environmental climate change and human rights impacts international policy imperatives and the practical challenges of regulating commercial activity that transcends borders The chapters offer an in depth examination of current issues including international frameworks and multistakeholder initiatives catalysing foundational change the shifting emphasis on corporate imperatives to avoid harm to third parties trends in CSR focused on assuring the planet's future sustainability and social stability regulatory initiatives around the globe including Europe North America Asia and Africa and extended accountability for activities of corporate group members and supply chains The pressure and business case for companies to incorporate CSR into corporate governance is intensifying with each quarter shareholder meeting and regulatory agenda The integration of CSR and new ESG frameworks into multinational corporate strategy and operations is key to sustainable business models that can generate long term value for the organization and all stakeholders Their acceptance as cornerstones of 21st century business practice appears inevitable Taking full account of the imperative for companies and their lawyers to grapple with the practical and legal challenges in this area this volume is an invaluable and pragmatic addition to the practitioners toolbox at this important juncture in an ever more dynamic field

Business Management for the IB Diploma Exam Preparation Guide Alex Smith, 2017-03-23 A comprehensive second edition of Business Management for the IB Diploma revised for first teaching in 2014

Saudi Arabia in a Multipolar World Zakir Hussain, 2016-04-14 The Kingdom of Saudi Arabia has established itself as the twelfth largest economy in the world the largest West Asian economic power world's largest oil producer and a strong and capable force in international politics particularly in the Sunni Islamic world However at present it is at crossroads Should it continue as a kingdom or usher in the process of inclusive political representation This volume answers such questions and explores how the state is coping with domestic regional and global developments to remain relevant in

the changing times It provides a holistic overview of a slew of economic political cultural military and security policy measures that have been initiated by the government The work also offers a detailed analysis of Saudi Arabia s relations with three significant powers USA China and India and how they are evolving under new geopolitical and geostrategic dynamics This book will interest strategists policymakers researchers and students of international relations geopolitics political science and political economy as well as the informed reader The Competitive Effects of Minority Shareholdings

Panagiotis Fotis,Nikolaos Zevgolis,2016-04-07 The objective of this book is twofold First it presents the economics of minority shareholdings under both merger and antitrust law In particular economic analysis provides both an overall assessment of minority shareholdings in the context of concentrations and Articles 101 and 102 TFEU and the examination of the link between non controlling minority shareholdings merger control and antitrust law Second the book also provides a legal assessment and an analysis of selected case law According to settled European case law minority shareholdings are analysed not only under Regulation 139 2004 but also under Articles 101 and 102 TFEU Nevertheless according to current enforcement practice at European and international levels several national competition authorities have adopted different approaches The million dollar question is whether the existing regulatory framework is sufficient to cover all possible cases In summary the book will be a useful tool for students practitioners researchers economic and legal experts and competition authorities It provides a comprehensive survey of the subject which has been missing until now and answers many questions that have been raised in the literature in the last decades **Push Back** Judith Large,2016-12-15 In 2009 after decades of conflict the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Elam Subsequently the state proved resistant to attempts by the UN and other international bodies to promote post war reconciliation or reform In this incisive new work Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace Push Back is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics Governance in Transition Ján Buček,Andrew Ryder,2015-04-15 This book looks at experience in government restructuring and devolution from a variety of national and international perspectives both within the European Union and elsewhere focusing on lessons learned and ways forward Since the 1980s there has been a global trend to give more power to local governments Even in Korea and the United Kingdom the most centralised countries in the OECD local government powers have increased with substantial economic benefits Within the European Union the principle of subsidiarity has enshrined the idea of devolution New member states particularly in central and eastern Europe have significantly created new and self sufficient local and regional governments However this process has been complicated Devolution is not a panacea in its own right and need not lead to economic

growth While it can encourage savings through collaboration it can also lead to confused lines of authority and can complicate policy formation and implantation Devolution can strain local budgets forcing local governments to rely on their own sources of finance rather than central government transfers Suburbanisation rural depopulation the growth of some regions and the decline of others have raised new problems particularly related to inter governmental cooperation among local governments and different levels of government In many cases an increased number of governments has increased administrative costs

The Political Economy of City Branding Ari-Veikko Anttiroiko,2014-02-24

Globalization affects urban communities in many ways One of its manifestations is increased intercity competition which compels cities to increase their attractiveness in terms of capital entrepreneurship information expertise and consumption This competition takes place in an asymmetric field with cities trying to find the best possible ways of using their natural and created assets the latter including a naturally evolving reputation or consciously developed competitive identity or brand The Political Economy of City Branding discusses this phenomenon from the perspective of numerous post industrial cities in North America Europe East Asia and Australasia Special attention is given to local economic development policy and industrial profiling and global city rankings are used to provide empirical evidence for cities characteristics and positions in the global urban hierarchy On top of this social and urban challenges such as creative class struggle are also discussed The core message of the book is that cities should apply the tools of city branding in their industrial promotion and specialization but at the same time take into account the special nature of their urban communities and be open and inclusive in their brand policies in order to ensure optimal results This book will be of interest to scholars and practitioners working in the areas of local economic development urban planning public management and branding

Oil Booms and Business Busts

Nimah Mazaheri, 2016-05-02 Oil Booms and Business Busts looks at how government policymaking shapes a puzzling phenomenon in economic development the curse of natural resources It investigates how oil and mineral wealth shapes a government's policies toward the business environment entrepreneurs and innovative activities Other similar work either ignores the role of government policymaking in oil wealth treats it as another effect of the rentier state or dismisses it as illogical and incoherent One might expect that in light of such abundances governments would encourage entrepreneurship and new businesses to compete and grow in the market but Nimah Mazaheri shows that resource wealth instead incentivizes policymakers to focus on satisfying the interests of existing elites They more than oil poor nations institute barriers that impede the activities of domestic firms and entrepreneurs with the result being unimpressive economic performance over the past half century This is the first book to examine how oil wealth affects non elite actors who own the small and medium sized firms that absorb a majority of the economic and labor force of these countries Looking at two of the most important oil producing countries in the world Iran and Saudi Arabia the book provides an original theory about the factors that shape a logic of policymaking in oil producing states To extend his theory Mazaheri also looks at India which is one of the world's main coal producers He does this to show the effects of the gain and loss of a massive resource windfall on state policymaking toward the private sector Ultimately Mazaheri argues that such policymaking impedes the development of a middle class and therefore democratization a factor that can have overarching political repercussions for governmental stability

Neuromanagement and Neuromarketing

Vincenzo Russo, Qingguo Ma, Jesper Clement, Jia Jin, Tao Liu, Margherita Zito, 2022-10-18 **Cleft Capitalism** Amr Adly, 2020-06-09 Egypt has undergone significant economic liberalization under the auspices of the International Monetary Fund the World Bank USAID and the European Commission

Yet after more than four decades of economic reform the Egyptian economy still fails to meet popular expectations for inclusive growth better standards of living and high quality employment While many analysts point to cronyism and corruption Amr Adly finds the root causes of this stagnation in the underlying social and political conditions of economic development Cleft Capitalism offers a new explanation for why market based development can fail to meet expectations small businesses in Egypt are not growing into medium and larger businesses The practical outcome of this missing middle syndrome is the continuous erosion of the economic and social privileges once enjoyed by the middle classes and unionized labor without creating enough winners from market making This in turn set the stage for alienation discontent and finally revolt With this book Adly uncovers both an institutional explanation for Egypt s failed market making and sheds light on the key factors of arrested economic development across the Global South **Affordable Housing in the Urban Global**

South Jan Bredenoord,Paul Van Lindert,Peer Smets,2014-06-05 The global increase in the number of slums calls for policies which improve the conditions of the urban poor sustainably This volume provides an extensive overview of current housing policies in Asia Africa and Latin America and presents the facts and trends of recent housing policies The chapters provide ideas and tools for pro poor interventions with respect to the provision of land for housing building materials labour participation and finance The book looks at the role of the various stakeholders involved in such interventions including national and local governments private sector organisations NGOs and Community based Organisations Digital Financial Services in the Pacific Asian Development Bank,2016-03-01 The challenging geography and poor infrastructure of many Pacific nations mean digital financial services DFS are a particularly effective means of enhancing financial inclusion in the region However a number of major challenges confront DFS in the Pacific including the establishment of reliable agent networks and the building of sufficient consumer trust in DFS for it to become a viable payments channel This report examines the current use of DFS in the Pacific analyzes the issues that need to be addressed and provides recommendations for increasing financial inclusion in the region This publication was produced by the Pacific Private Sector Development Initiative a regional technical assistance facility cofinanced by the Asian Development Bank ADB the Government of Australia and the New Zealand government **Iran's Reconstruction Jihad** Eric Lob,2020-02-27 The first full length study to examine the significance of the critical but neglected Iranian organization and ministry Reconstruction Jihad Business Statistics ,1967
