Pearson, F.W. Tauber, 2012-12-06 This book has been updated and expanded to give more complete coverage than the earlier edition Like the earlier edition it emphasizes basic scientific principles involved in production of processed meat and poultry products In addition many product formulations and processing procedures that have been tested under commercial conditions are included Intended as a university text for advanced undergraduate and graduate students enrolled in the meat processing course it is hoped that this book will also prove useful as a reference book to industry and government scientists and researchers engaged in or associated with meat and poultry processing A M Pearson F W Tauber tDeceased 1 Introduction to Meat Processing Meat processing as discussed in this text includes all

processes utilized in altering fresh meat except for simple grinding cutting and mixing In the broadest sense this includes curing smoking canning cooking freezing dehydration production of intermediate moisture products and the use of certain additives such as chemicals and enzymes However the definition excludes cutting grinding and pack aging of fresh meats in retail stores and in homes In this way the definition differentiates between 1 those processes that enter into the preservation and manufacturing of meat products and 2 those that alter the form of fresh meat in preparation for consumption
