Nostalgia Phoebe Rumsey, 2023-07-11 Embodied Nostalgia is a collection of interlocking case studies that focus on how social dance in musical theatre brings forth the dancer on stage as a site of embodied history cultural memory and nostalgia and asks what social dance is doing performatively dramaturgically and critically in musical theatre The case studies in this volume are all Broadway musicals set during the Jazz Age 1910 1950 however performed and produced after that time creating a spectrum of nostalgic impulses that are interrogated for social and political resonance and meaning All reflect the fractures or changes in the social dance when brought to the stage and expose the complexities of the embodied nostalgia broadly interpreted as the physicalizing of community memories longings and historical meaning the dances carry with them Particular attention is focused on the Black ownership of the social dances and the subsequent appropriation cultural theft and forgotten legacies By approaching musical theatre through this lens of social dance always already deeply connected to notions of class and race and the politics of choreography therein a unique and necessary method to describing discussing and critically evaluating the body in motion in musical theatre is put forth **The New York Times Film Reviews**

Internment during the Second World War Rachel Pistol, 2017-09-07 The internment of enemy aliens during the Second World War was arguably the greatest stain on the Allied record of human rights on the home front Internment during the Second World War compares and contrasts the experiences of foreign nationals unfortunate enough to be born in the wrong nation when Great Britain and later the USA went to war While the actions and policy of the governments of the time have been critically examined Rachel Pistol examines the individual stories behind this traumatic experience The vast majority of those interned in Britain were refugees who had fled religious or political persecution in America the majority of those detained were children Forcibly removed from family friends and property internees lived behind barbed wire for months and years Internment initially denied these people the right to fight in the war and caused unnecessary hardships to individuals and families already suffering displacement because of Nazism or inherent societal racism In the first comparative history of internment in Britain and the USA memoirs letters and oral testimony help to put a human face on the suffering incurred during the turbulent early years of the war and serve as a reminder of what can happen to vulnerable groups during times of conflict Internment during the Second World War also considers how these tragedies of democracy have been remembered over time and how the need for the memorialisation of former sites of internment is essential if society is not to repeat the same injustices
