Red Alert Stephen Leeb, 2011-10-19 I would caution readers to dismiss Stephen Leeb s warnings only at their peril Thomas Kaplan chairman Tigris Financial Group The American Dream is close to being replaced by a living nightmare Key commodities that are essential to our daily lives and that are widely believed to be abundant are running critically short Even worse the Chinese are doing what they can to monopolize the world s dwindling resources The U S is now largely dependent on our greatest economic rival for rare earth elements as well as a host of other minerals all of which are absolutely essential to the development of alternative energies and are critically important for our defense industry computers cell phones and other electronic devices While America has been fighting wars in Iraq and Afghanistan China has focused its substantial muscle on securing vital commodities from these and other lands to upgrade its infrastructure and industrial strength to meet the resource challenge head on China has wrapped itself in the green flag of combating climate change while systematically discouraging other nations from adopting similar policies in a bid to gain time to achieve its plans Red Alert is a provocative and frightening look at the growing political economic and social power of China and the threat that nation poses to the Western world It lays out how the Chinese are strategizing to overtake the United States as

the world's premier economic power and details how our failure to respond quickly will result in a permanently lower standard of living for Americans. Peppered with startling statistics, charts, and evidence of how China continues to expand its economic reach, *Red Alert* is both controversial and powerful in its scope. *Guide on digital agricultural extension and advisory services* Food and Agriculture Organization of the United Nations, 2023-03-30 Digital agricultural extension and advisory services AEAS have a great potential to enhance accessibility, delivery, transparency, scope, and impacts of information and services for smallholder farmers. However, this potential is often unfully harnessed, and the benefits of digital AEAS are unequally distributed due to an evident widening digital divide between rural and urban areas, gender, and different social groups both within and among regions. Due to low level e-literacy and digital skills, particularly smallholder farmers in rural areas in developing countries have limited access to and utilization of digital AEAS. Considering the above-mentioned benefits of digital AEAS, their poor uptake by smallholder farmers, and the importance of digital empowerment of smallholder farmers, in particular, this guide targeting smallholder farmers in need of digital AEAS as its principal users provides a set of tools to enhance their digital skills in terms of basic knowledge and skills on using digital tools, methods of access to digital AEAS, methods of access to e-commerce, and capacity building. **The Official (ISC)2 Guide to the SSCP CBK** Adam Gordon, Steven Hernandez, 2015-11-09 The ISC 2 Systems Security Certified Practitioner (SSCP) certification is one of the most popular and ideal credential for those wanting to expand their security career and highlight their security skills.
