Human Behavior In The Social Environment A Multidimensional Perspective:

Human Behavior in the Social Environment José B. Ashford, Craig W. LeCroy, Kathy L. Lortie, 2006 Ashford LeCroy and Lortie's ground breaking book offers students a balanced integrated introduction to human behavior in the social environment. Lively and comprehensive, this book succeeds by helping students connect foundation knowledge with practice concerns. Clarified through the introduction of study tables and concept maps at the end of each discussion, behavior in the development chapters, the authors look at biopsychosocial development across the life span using an integrative multidimensional approach, discussing integrative practice, theory, treatment, and services throughout. This multidimensional framework provides a concrete tool for the reader to assess human behavior from a perspective that truly reflects the values and knowledge base of the social work profession. Together, the book's solid coverage of foundation knowledge, integration of the biopsychosocial dimensions for assessing social functioning, its multidimensional framework, and its use of case studies to illuminate the applied aspects of HBSE content, along with the authors' consistent attention to diversity, successfully combine to give readers a meaningful, exciting experience.

The Fruit of the Spirit Al L. Holloway, 2008-11 Though the schism of valuing spirituality with respect to social work practice has lessened over the years there continues to be a gap in our understanding as to exactly what spirituality is and how one might incorporate it within social work practice It is my contention that social workers should not only be incorporating spirituality within their practice but also they should become spiritual exemplars themselves Fruit of the Spirit A Primer for Spiritually minded Social Workers provides some provocative notions that will spur the reader forward on his/her spiritual development It introduces to the reader the notion of spiritual differentiation from the animalistic notion of self which I describe as the indifferent heart realm to the development of humanistic principles craving heart realm to the ultimate experience of our purposeful journey of being fully cognizant of our spiritual selves pure heart realm This process is exemplified with a gardening metaphor which the reader can progress from seeding awareness of one's spiritual self and the

sowing of spiritual seeds weeding the structure and care of developing our spiritual selves and the harvesting the ingesting and granting of spiritual fruits that has been produced Traditional knowledge of social work practice helps to elucidate the student whereas embracing spiritual principles is about transforming and transcending the student to higher levels The fruits that are gathered are the attributes of God e g love peace goodness etc There are exercises at the end of each chapter that will assist the reader in developing his her spirituality
