Conducting either an occupational or activity analysis investigates not only what is required for full participation but also looks at the meaning ascribed to it by the people, groups, or communities engaging in it and how personal and environmental contexts impact participation. What's new and included in the Third Edition: Chapters throughout the text have been updated to reflect the changes in the OTPF 4; Updated educational standards set by the Accreditation Council for Occupational Therapy Education (ACOTE) for doctoral and master's level and occupational therapy assistant programs; Additional cases and relevant clinical examples; Updated tables, boxes, and figures throughout; Expanded section on communication management; Appendices containing updated occupational and activity analysis forms; Example of a full activity analysis; Updated and added photos to help students understand concepts; Included with the text are online supplemental materials for faculty use in the classroom.
