**Targeting in International Law** Amin Parsa,2023-12-05 This book is about how distinctions are drawn between civilians and combatants in modern warfare and how the legal principle of distinction depends on the technical means through which combatants make themselves visibly distinguishable from civilians The author demonstrates that technologies of visualisation have always been part of the operation of the principle of distinction arguing that the military uniform sustained the legal categories of civilian and combatant and actively set the boundaries of permissible and prohibited targeting and so legal and illegal killing Drawing upon insights from the theory of legal materiality visual studies critical fashion studies and a dozen of military manuals he shows that far from being passive objects of regulation these technologies help to draw the boundaries of the legitimate target With its attention to the co productive relationship between law technologies of visualisation and legitimization of violence this book will be relevant to a large community of researchers in international law international relations critical military studies contemporary counterinsurgency operations and the sociology of law

**The Oxford Handbook of Roman Britain** Martin Millett,Louise Revell,Alison Moore,2016-09-01 This book provides a twenty first century perspective on Roman Britain combining current approaches with the wealth of archaeological material from the province This volume introduces the history of research into the province and the cultural changes at the beginning and end of the Roman period The majority of the chapters are thematic dealing with issues relating to the people of the province their identities and ways of life Further chapters consider the characteristics of the province they lived in such as the economy and settlement patterns This Handbook reflects the new approaches being developed in Roman archaeology and demonstrates why the study of Roman Britain has become one of the most dynamic areas of archaeology The book will be useful for academics and students interested in Roman Britain

**The Oxford Handbook of Byzantine Art and Architecture** Ellen C. Schwartz,2021-11-19 Byzantine art has been an

underappreciated field often treated as an adjunct to the arts of the medieval West if considered at all In illustrating the richness and diversity of art in the Byzantine world this handbook will help establish the subject as a distinct field worthy of serious inquiry Essays consider Byzantine art as art made in the eastern Mediterranean world including the Balkans Russia the Near East and north Africa between the years 330 and 1453 Much of this art was made for religious purposes created to enhance and beautify the Orthodox liturgy and worship space as well as to serve in a royal or domestic context Discussions in this volume will consider both aspects of this artistic creation across a wide swath of geography and a long span of time The volume marries older object based considerations of themes and monuments which form the backbone of art history to considerations drawing on many different methodologies sociology semiotics anthropology archaeology reception theory deconstruction theory and so on in an up to date synthesis of scholarship on Byzantine art and architecture The Oxford Handbook of Byzantine Art and Architecture is a comprehensive overview of a particularly rich field of study offering a window into the world of this fascinating and beautiful period of art
