

Welcome to A.P. Biology!

The purpose of this letter is to assign the summer work that will be expected of all A.P. Biology students. These readings serve to introduce some core topics of biology and provide a basic understanding of some of the detailed topics we will encounter next year. I am thrilled to have you in my class, and even though AP Biology will be a great deal of work, it will be fun and provide you with endless benefits. You will be more aware of the biological world around us.

Summer Reading Assignment due September 3

You have a ton to learn before your exam in early May. Because we have so much to do in a short amount of time, you need to do some summer reading to hit the ground running in September. You will have a test the first week of school on Ecology. PLEASE do this sooner rather than later or at least pace yourself. A job done on September 3rd is not a good job that will do your learning justice. You want to start out the course with as many points as possible. Late work is not accepted.

Complete the following by the given due dates. All of the following are either worth points toward your grade or will directly benefit your understanding of major biological concepts.

☐

You can check out your book from me the last 3 weeks of school. This is advisable because you will burn your eyeballs! Regardless, I need you to register for online access. The directions are on the next page.

☐

Required: Purchase *Cliffs AP Biology* review book (3rd edition) by Phillip E. Pack (from amazon.com or your local book store).

We will use this review material as a class. (*Barron's AP Biology Review*)

- a. Read the section on "Ecology"
- b. Complete the Multiple Choice questions and Essays at the end of this chapter.
 - i. When you have completed the "Assessment" portion, compare and contrast your answers with the given correct answers. Pay close attention to the essays.
 - ii. Bring this to school with you on August 30.
