Oscar Krisen Buros,1983      *The Publishers Weekly* ,1925      **Resources in Education** ,1999      **The Best For My Child: Did the market really deliver?** Fiona Millar,2018-05-21 Parent choice diversity of school provision and the idea of a quasi market in schools have dominated education policy for the last thirty years since the passage of the 1988 Great Education Reform Act But has the market worked in the way that was intended Are schools better Do we have a fairer school system Do parents really have choice Author and journalist Fiona Millar looks at why these policies have proved so seductive to a generation of politicians and seeks to uncover whether we really are doing the best for all our children If we are not what future reform could and should look like This is an area that has preoccupied me since the early 1990s when my own children s school was one of the first to be named and shamed by Ofsted explains Millar We had first hand experience of how the market worked in practice so this is an area I have followed with close interest every since Thirty years on from the 1988 Act I feel we are ready for a new approach but that is important to understand what worked and what could be better I hope my book will help to answer those questions      **The new European motorcycle test** Great Britain: Parliament: House of Commons: Transport Committee,2010-03-23 In April 2009 a new testing regime based on the Second EU Driving Licence Directive was introduced Deadlines for implementation had not been met and when the new test was finally introduced it was met with intense criticism and safety concerns The number of tests taken dropped dramatically in the first few months and

the industry suggested that the new test regime would threaten many small businesses and jobs The Committee was concerned to not only establish whether the test had gone wrong and how problems could be rectified but also to ensure lessons are learned before the implementation of the Third EU Driving Licence Directive They concluded that they could not see why the Government failed to obtain derogation from certain speed requirements and that though many elements of the new regime were appropriate it was important to take into account the concerns expressed and consider what adjustments might be required They also believe that training and instruction for the motorcycle test needs to develop and change to reflect the new test requirements The off road module of the test also needs to be amended to allow candidates to adapt their riding to reflect prevailing weather road and other circumstances The development of better awareness of motorcyclists among other road users is also crucial and should not be neglected Though the Government exceeded what was necessary to comply with the EU directive the Committee believes they were right to do so It is the development of Multi Purpose Test Sites for which justification was weak and implementation inept which represents the least effective element **Seattle**

**Grade Teacher** ,1922 Grading for Equity Joe Feldman,2023-08-26 For some time traditional A F grading practices have been under fire from a wide range of stakeholder Grading policies are wildly inconsistent from classroom to classroom frequently misguided uninformed and frequently based on subjective judgments Of even more concern our grading practices exacerbate the achievement gap It is well documented that African American and Latino students boys as well as special education students are disproportionately suspended and expelled influenced by teachers unconscious but biased judgments of student behavior Virtually ignored is how teachers incorporate subjective and non academic criteria into their grades through criteria such as student attitude participation and effort and how approach to grading contributes to these same students disproportionately high course failure rates and disproportionately low placement in advanced academic tracks
