Now in a fully updated sixth edition, this book is an established treatise in the field of civil jurisdiction and judgments. It states, analyses, illuminates and evaluates the law of civil jurisdiction and the enforcement of foreign judgments in English law with this new edition taking into account the implications of the new Brussels I Regulation recast Regulation (EU) 1215/2012 as well as the great number of developments in the case law which have taken place since 2009. This book looks in detail at the jurisdictional rules put in place by the recast Brussels I Regulation, the common law rules of jurisdiction, the principles according to which that jurisdiction will or will not be exercised, the extent to which proceedings before a foreign court may be assisted or impeded, obtaining interim and interlocutory relief, recognition and enforcement of foreign judgments. This text is an authoritative and comprehensive reference for all legal professionals working in commercial law across jurisdictions.

The Conflict of Laws Adrian Briggs, 2019-10-24. This invaluable introduction to the study of the conflict of laws provides a survey and analysis of the rules of private international law as they apply in England. Written to take account of the various possible outcomes of the Brexit process, it goes as far as is possible to make sense of the effect it will have on English private international law. The volume covers general principles, jurisdiction and the effect of foreign judgments, the law applicable to contractual and non-contractual obligations, the private international law of property of adults, the increasingly complex law of children, is described in bare outline and of corporations. It does so in a manner which explains and illuminates the principles which underpin the subject in a clear and coherent fashion as the wealth of literature, case law and legislation can often obscure the architecture of the subject and unnecessarily complicate its study. This new edition organizes the existing material in light of European legislation on private international law, reflecting the way in which an accurate representation of the topic requires it to be interpreted as European law with a common law periphery instead of common law with European legislative influences. As at the time of writing and possibly for some time to come, the consequences of Brexit are a mystery, but the attempt is made to describe the various possible shapes which the subject will assume in the future. The book adopts a pragmatic approach and avoids the more abstract theory as the theory of the conflict of laws is actually to be found in and by applying the legislation and jurisprudence to the cases and issues which arise in private international litigation and in giving legal advice.
