David Spiegelhalter, 2025-03-04 Named a Best Book of the Year by Forbes and The Economist From our greatest living statistical communicator Tim Harford comes an invaluable data driven guide for understanding and learning to embrace risk and uncertainty in our daily lives How dangerous is our diet How much of sports falls into the realm of luck When authorities categorize a given event as highly likely how likely is that really Whether we're trying to decide if the benefits of a new medication are worth the chance of side effects or if artificial intelligence truly threatens humanity our lives are riddled with uncertainties both everyday and existential yet it can be difficult to know how to properly weigh all those unknowns Luckily for us renowned statistician David Spiegelhalter has spent his career dissecting data to resolve the apparently random and decode the many decisions we face with imperfect information In The Art of Uncertainty he shows how we can become better

at dealing with what we don't know to make smarter choices in a world so full of puzzling variables. In lucid, lively prose Spiegelhalter guides us through the principles of probability, illustrating how they can help us think more analytically about everything from medical advice to sports to climate change forecasts. He demonstrates how taking a mathematical approach to phenomena we might otherwise attribute to fate or luck can help us sort hidden patterns from mere coincidences, better evaluate cause and effect, and predict what's likely to happen in the future. Along the way, we learn how a misinterpretation of a probability contributed to the infamous Bay of Pigs fiasco, why a ship twice the size of the Titanic sank without a trace, and why we can be so confident that no two properly shuffled decks of cards have ever been in the same order. Sparkling with wit and fascinating real-world examples, this is an essential guide to navigating uncertainty while also retaining the humility to admit what we don't or simply cannot know.

Edexcel GCE A Level Chinese 2020, Paper 1 (9CN0/01): Listening Reading and Translation DAVID YAO, Edexcel AS designed a motivating course of study that will enable your students to develop an advanced level knowledge and understanding of the Chinese language, the culture of China, and other Chinese-speaking countries and communities, as well as practical and valuable language and transferable study skills. This specification will help to prepare students for higher education and enhance their employability profile. The two Inspiring and engaging themes are studied alongside either one literary text or one film and assessed through two externally examined papers. Papers 1 and 2 and one teacher examiner conducted speaking assessment. Paper 3 Theme 1: Changes in contemporary Chinese society; Theme 2: Chinese culture. We are expert in Chinese for foreigners, and we pay attention to Edexcel GCSE, GCE Chinese closely since 1999. We build a huge database to cover all GCSE, A LEVEL, AP, SAT, IB Chinese from different exam boards and HSK Chinese Proficiency Test.
