**Drug Use in Prisoners** Dr. Stuart A. Kinner, Dr. Josiah D. Jody Rich, 2018-01-09. In most countries, problematic drug use is dealt with primarily as a criminal justice issue rather than a health issue. Accordingly, a large proportion of people in prison have a history of alcohol, tobacco, and/or illicit drug use, and despite the best efforts of correctional authorities, some continue to use these substances in prison, often in very risky ways. After release from prison, many relapse to risky substance use and are at high risk of poor health outcomes, preventable death, or reincarceration. In this edited volume, for the first time, we bring together 40 contributors from 10 countries to review what is known about alcohol, tobacco, and illicit drug use in people who cycle through prisons and the harms associated with use of these substances. We consider some evidence-based responses to these harms both in prison and after return to the community and discuss their implications for policy reform. This book is international in scope and multi-disciplinary in character. It brings together and integrates the perspectives of public health and addictions researchers, criminologists, and correctional leaders, epidemiologists, physicians, and human rights lawyers. Our contributors are unified in their commitment to evidence-informed policy that is doing what we know works. An overarching theme pervading all of the chapters is that people who cycle through prisons come from the community and almost always return to the community. Their health

problems are therefore our health problems in other words prisoner health is public health      **Expert Laws of War** Anton O. Petrov,2020-06-26 Over recent decades international humanitarian law has been shaped by the omnipresence of so called expert manuals Astute and engaging this discerning book provides a comprehensive account of these black letter rules and commentaries produced by private expert groups and demonstrates why the general acceptance of these expert manuals is largely unjustified The author innovatively links interdisciplinary insights to the needs of military lawyers in practice showing the pitfalls of relying on private manuals as arguable restatements and interpretations of the law as it is      **The United States Department of Defense Law of War Manual** Michael A. Newton,2019-01-24 The United States Department of Defense Law of War Manual Commentary and Critique provides an irreplaceable resource for any politician international expert or military practitioner who wishes to understand the approach taken by the American military in the complex range of modern conflicts Readers will understand the strengths and weaknesses of US legal and policy pronouncements and the reasons behind the modern American way of war whether US forces deploy alone or in coalitions This book provides unprecedented and precise analysis of the US approach to the most pressing problems in modern wars including controversies surrounding use of human shields fighting in urban areas the use of cyberwar and modern weaponry expanding understanding of human rights and the rise of ISIS This group of authors including academics and military practitioners provides a wealth of expertise that demystifies overlapping threads of law and policy amidst the world s seemingly intractable conflicts      **Military Rules of Evidence Manual** Stephen A. Saltzburg, Lee D. Schinasi, David A. Schlueter, 1991 This handbook contains the official language of each Rule along with detailed commentary The work includes tables which cite to virtually all cases addressing the Military Rules of Evidence      **The (Unofficial) Google Nexus 5 SmartPhone Book** UnofficialBooks,2013-11-26 NOTE While this edition is good value there is a newer edition The Unofficial Google Nexus 5 SmartPhone Book Second Edition The Google designed and LG manufactured Nexus 5 is the first smartphone to run the Android 4.4 KitKat operating system If you ve just bought a Nexus 5 smartphone or you re thinking about buying one you should read this book The ethos of the book is very much What the Nexus 5 can do for you and it s an unofficial book because we have not colluded with the manufacturers Google or LG during the writing of the book so we can say pretty much whatever we want And if we say we like it it s because we really do But we re no fan boys and we don t mind giving a warnt n all coverage where it s warranted So whether you re so far undecided or have already purchased your Nexus 5 buy this book And look out for similar books at unofficialbooks info CONTENTS 1 Introduction 2 About the Nexus 5 3 Getting Started 4 Interacting with the Nexus 5 5 Google Now 6 Nexus 5 as a Communication Tool 7 Nexus 5 as a Camera 8 Nexus 5 as a Media Player 9 Nexus 5 as a Sat Nav and Map 10 Nexus 5 as a Web Browser 11 Nexus 5 as Your Office 12 Nexus 5 as a Desktop Computer 13 Android Apps and the Play Store 14 Settings How did we Help You      *Hague Law Interpreted* Stuart Casey-Maslen, Steven Haines, 2018-11-15 Given the centrality of Hague Law to the lawful prosecution of warfare the relative

paucity of dedicated works is surprising The general formulation of Hague Law rules is largely uncontroversial but this clarity stands in stark contrast to their interpretation and practical application How precisely for instance the fundamental rules of distinction and proportionality in attack are to dictate and constrain the planning and practice of warfare continues to be highly uncertain This important new publication fills the gap in the literature Offering a comprehensive assessment of Hague Law it explores questions of definitions and accountability and navigates the substantive rules and their application to different types of warfare
