is about managing networks That itself is not a new concept We ve been managing the networks that support our telephones for about 100 years and we ve been managing the networks that support our computers for about 20 years What is new and what motivated me to write this book is the following i the enormous advancements in networking technology as we transition th st from the 20 century to the 21 century ii the increasing dependence of human activities on networking technology and iii the commercialization of services that depend on networking technology e g email and electronic commerce
