Pandigm Science Won H. KIM, 2022-01-01 Science of 21st century needs new paradigm Paradigm shift is initiated from unexplainable fact with current paradigm New paradigm will be initiated from the unexplainable fact This time it could be water memory which is not explained with current science based on materialism

New paradigm explains water memory with 3D wave inherent to matter 3D wave is faster than speed of light and exists in the area of imaginary number carrying out its effect as a field with 3D structure similar to original matter 3D wave can be separated from hormone to water 3D wave of hormone in water as separate entity can be interacting with hormone receptor leading to cellular transmission 3D wave of medically effective substances can be stored in water and can be utilized successfully for various diseases 3D wave of matter can be digitized and expressed in 2D space Digitized 3D wave shows the same functionality of original matter through holographic space Digitized 3D wave can be modulated to electricity and change the characteristic of electricity There are enough facts which require new paradigm out of materialism 21st cen should be an era for new paradigm beyond materialism
