**Directions:** Follow the instructions to go through the simulation. Respond to the questions and prompts in the orange boxes.

**Vocabulary:** dehydration, heat stroke, homeostasis, hypothermia, involuntary, thermoregulation, voluntary

**Prior Knowledge Questions** (Do these BEFORE using the Gizmo.) A thermostat is a device that regulates the temperature inside a building.

1. What does a thermostat do if it gets too cool?

The thermostat line will go down.

2. What does a thermostat do if it gets too hot?

The thermostat line goes up.

3. How do our bodies sometimes act like a thermostat?

In the hot weather we start to sweat and our bodies get hot and fever our bodies get hot, when it's cold weather our bodies freeze and we need more layers of clothing to feel warm.

### Gizmo Warm-up

To survive, an organism must be able to maintain stable internal conditions in a changing environment. This process is called **homeostasis**. The *Human Homeostasis* Gizmo allows you to explore how the human body stays at a nearly constant temperature in different conditions. Notice the **Air temp.** and **Body temp.** thermometers representing the air temperature and body temperature. What is the initial air temperature?

0°C and 32°F

1. What is the initial body temperature?

37°C and 99°F

2. Next to each factor listed below, write "increase," "decrease," or "same" based on how you expect that factor to affect body temperature.

Raising air temperature:

Lowering air temperature:

**The ADD Answer** Frank Lawlis, 2005-08-30 Every year 17 million new cases of attention deficit disorder or ADD are diagnosed in children But medications designed to treat the disorder don't work for many children and often leave families frustrated and searching for more options In *The ADD Answer* Dr Frank Lawlis draws upon his thirty five years of experience as a clinical and research psychologist to show parents how they can reclaim their central role in healing their children with comprehensive step by step advice on dealing with the problems of ADD His approach blends the latest medical nutritional and psychological treatments that can increase brain function with expert insight into the emotional and spiritual support kids need Including assessment tests geared to help parents understand their child's particular needs and practical information on proven treatment options *The ADD Answer* explores The role of nutrition in treating the disorder The positive effects of counseling and goal setting Advances in the field of biofeedback The importance of sleep and much more An inspiring and essential guide *The ADD Answer* will help every family facing the challenges of ADD create a more loving healthy environment necessary for their child to thrive Datapolis Paul Cournet, Negar Sanaan Bensi, 2024-02-05 DATAPOLIS looks into the materiality of data its inherent ethical and political contradictions as well as cultural and environmental footprints by following two main trajectories the first one attempts to define what the cloud is and how it operates From the systems and infrastructures behind the Internet to the apparatus gizmos and buildings that can transcend scales and temporal dimensions The second one explores how data penetrates our existence not only by affecting the ways we live and work or design and make cities but by offering distinct ways of life and organization that otherwise would not have been possible Through various visual and textual materials this book speculates on the ways in which architecture can engage with data and digital technology beyond its mere instrumental use in making smart cities DATAPOLIS is edited by Paul Cournet and Negar Sanaan Bensi With contributions by Kees Kaan Kate Crawford Shannon Mattern Ruha Benjamin Marina Otero Verzier and Joost Grootens a o The most complete version of this work was published in 2023 by nai010

**Fixing Reference** Imogen Dickie, 2015-12-03 Imogen Dickie develops an account of aboutness fixing for thoughts about ordinary objects and of reference fixing for the singular terms we use to express them Extant discussions of this topic tread a weary path through descriptivist proposals causalist alternatives and attempts to combine the most attractive elements of each The account developed here is a new beginning It starts with two basic principles The first connects aboutness and truth a belief is about the object upon whose properties its truth or falsity depends The second connects truth and justification justification is truth conducive in general and allowing exceptions a subject whose beliefs are justified will be unlucky if they are not true and not merely lucky if they are These principles one connecting aboutness and truth the other truth and justification combine to yield a third principle connecting aboutness and justification a body of beliefs is about the object upon which its associated means of justification converges the object whose properties a subject justifying beliefs in

this way will be unlucky to get wrong and not merely luck to get right The first part of the book proves a precise version of this principle Its remaining chapters use the principle to explain how the relations to objects that enable us to think about them perceptual attention understanding of proper names grasp of descriptions do their aboutness fixing and thought enabling work The book includes discussions of the nature of singular thought and the relation between thought and consciousness     **Electric Sheep: The Foragers (Super Science Showcase Adventures #2)** Alicia Cole, Lee
