The Counselor Educator's Survival Guide Dilana M. Perera-Diltz, Kathryn C. MacCluskie, 2013-06-19 For those developing and teaching Counselor Education courses in Clinical Mental Health Counseling and School Counseling programs this unique text will be a valuable resource. In it experienced instructors provide guidance based on their own breadth of experiences demonstrating how to design and implement an effective curriculum. Chapters cover course topics such as theories of counseling, multicultural counseling, legal and ethical issues, psychopharmacology, and many more. Each chapter is organized in the following sequence: an overview and objectives of the course including CACREP standards, criteria for evaluating a text, and evaluations of the most popular texts used; supplemental reading and web sites; learning activities; counseling vignettes; assignments; and a tentative course schedule concluding with comments and advice from the author. The authors also speak about the main points they want their students to master and some of the dilemmas and challenges they have faced in their own teaching. Both seasoned faculty looking for ways to enrich a course and new educators teaching for the first time will find this an indispensable resource for both themselves and their departments. **Human Development**

Robert V. Kail, John C. Cavanaugh, 2013. Balanced coverage of the entire life span is just one thing that distinguishes **HUMAN DEVELOPMENT A LIFE SPAN VIEW 6TH EDITION**. With its comprehensive, succinct, and applied coverage, the text has proven its ability to capture students' interest while introducing them to the issues, forces, and outcomes that make us who we are. Robert V. Kail's expertise in childhood and adolescence combined with John C. Cavanaugh's extensive research in gerontology result in a book with a rich description of all life span stages and important topics. A modified chronological approach traces development in sequential order from conception through late life while also dedicating several chapters to key topical issues. This organization also allows the book to be relatively briefer than other texts, a benefit given the enormous amount of information covered in the course. *The Palgrave Handbook of Child Mental Health* Jessica Nina Lester, Michelle O'Reilly, 2015-12-17. A landmark publication in the field, this state-of-the-art reference work includes contributions from leading thinkers across a range of disciplines on topics including ADHD, autism, depression, eating disorders, and trauma.
