The Rhetorical Road to Brown v. Board of Education Wanda Little Fenimore, 2023-04-21 As early as 1947 Black parents in rural South Carolina began seeking equal educational opportunities for their children After two unsuccessful lawsuits these families directly challenged legally mandated segregation in public schools with a third lawsuit in 1950 which was eventually decided in *Brown v Board of Education* Amidst the Black parents resistance Elizabeth Avery Waring a twice divorced northern socialite and her third husband federal judge J Waties Waring launched a rhetorical campaign condemning white supremacy and segregation In a series of speeches the Waring's exposed the incongruity between American democratic ideals and the reality for Black Americans in the Jim Crow South They urged audiences to pressure elected representatives to force southern states to end legal segregation Wanda Little Fenimore employs innovative research methods to recover the Waring's speeches that said the unsayable about white supremacy When the couple poked at the contradiction between segregation and all men are created equal white supremacists pushed back As a result the couple received both damning and congratulatory letters that reveal the terms upon which segregation was defended and the reasons those who opposed white supremacy remained silent Using rich archival materials Fenimore crafts an engaging narrative that illustrates the rhetorical context from which *Brown v Board of Education* arose and dispels the notion that the

decision was inevitable The first full length account of the Warings rhetoric this multilayered story of social progress traces the symbolic battle that provided a locus for change in the landmark Supreme Court decision **Empire of the Air** Jenifer Van Vleck,2013-11-01 Jenifer Van Vleck s Empire of the Air reveals the central role commercial aviation played in the U S ascent to global preeminence in the twentieth century as the federal government partnered with the aviation industry to deliver American power across the globe and sell the idea of the American Century to the public at home and abroad

Stid,1998 A political scientist who went on to become president Woodrow Wilson envisioned a responsible government in which a strong leader and principled party would integrate the separate executive and legislative powers His ideal however was constantly challenged by political

reality Daniel Stid explores the evolution of Wilson's views on this form of government and his endeavors as a statesman to establish it in the United States. The author looks over Professor and then President Wilson's shoulder as he grappled with the constitutional separation of powers demonstrating the importance of this effort for American political thought and history. Although Wilson is generally viewed as an unstinting and effective opponent of the separation of powers, the author reveals an ambivalent statesman who accommodated the Founders' logic. This book challenges both the traditional and revisionist views of Woodrow Wilson by documenting the moderation of his statesmanship and the resilience of the separation of powers. In doing so, it sheds new light on American political development from Wilson's day to our own. Throughout the twentieth century, political scientists and public officials have called for constitutional changes and political reforms that were originally proposed by Wilson. By reexamining the dilemmas presented by Wilson's program, Stid invites a reconsideration of both the expectations we place on the presidency and the possibilities of leadership in the Founders' system. The President as Statesman contributes significantly to ongoing debates over Wilson's legacy and raises important questions about the nature of presidential leadership at a time when this issue is at the forefront of public consciousness.

Supreme Memorandum of Law of Defendant-Appellant, **Palmers' Index to the Times Newspaper**, 1900 Union in Peril Howard Jones, 2017-10-10 Jones studies the crisis in Anglo-American relations during the Civil War and its impact on the South's attempt to win foreign support during the crucial years of 1861 and 1862. He argues that the central issue was the possibility that Britain would grant diplomatic recognition to the Confederacy, a move that would have legitimized secession and undermined the Constitution. The Virginia Law Register, 1906 Mews' Digest of English Case Law John Mews, 1925 NASA Technical Memorandum, 1983 **The Forgotten Front** Walter C. Ladwig III, 2017-06-09 After a decade and a half of war in Iraq and Afghanistan, US policymakers are seeking to provide aid and advice to local governments' counterinsurgency campaigns rather than directly intervening with US forces. This strategy and US counterinsurgency doctrine in general fail to recognize that despite a shared aim of defeating an insurgency, the US and its local partner frequently have differing priorities with respect to the conduct of counterinsurgency operations. Without some degree of reform or policy change on the part of the insurgency-plagued government, American support will have a limited impact. Using three detailed case studies—the Hukbalahap Rebellion in the Philippines, Vietnam during the rule of Ngo Dinh Diem, and the Salvadoran Civil War—Ladwig demonstrates that providing significant amounts of aid will not generate sufficient leverage to affect a client's behaviour and policies. Instead, he argues that influence flows from pressure and tight conditions on aid rather than from boundless generosity.
