The Spectacle 2.0 Marco Briziarelli,Emiliana Armano,2017-12-17 Spectacle 2 0 recasts Debord s theory of spectacle within the frame of 21st century digital capitalism It offers a reassessment of Debord s original notion of Spectacle from the late 1960s of its posterior revisitation in the 1990s and it presents a reinterpretation of the concept within the scenario of contemporary informational capitalism and more specifically of digital and media labour It is argued that the Spectacle 2 0 form operates as the interactive network that links through one singular but contradictory language and various imaginaries uniting diverse productive contexts such as logistics finance new media and urbanism Spectacle 2 0 thus colonizes most spheres of social life by processes of commodification exploitation and reification Diverse contributors consider the topic within the book s two main sections Part I conceptualizes and historicizes the Spectacle in the context of informational capitalism contributions in Part II offer empirical cases that historicise the Spectacle in relation to the present and recent past showing how a Spectacle 2 0 approach can illuminate and deconstruct specific aspects of contemporary social reality All contributions included in this book rework the category of the Spectacle to present a stimulating compendium of theoretical critical literature in the fields of media and labour studies In the era of the gig economy highly mediated content and President Trump Debord s concept is arguably more relevant than ever *The Routledge History of Emotions in the Modern World* Katie Barclay,Peter N. Stearns,2022-08-09 The Routledge History of Emotions in the Modern World brings together a diverse array of scholars to offer an overview of the current and emerging scholarship of emotions in the modern world Across thirty six chapters this work enters the field of emotion from a range of angles Named emotions love anger fear highlight how particular categories have been deployed to make sense of feeling and their evolution over time Geographical perspectives provide access to the historiographies of regions that are less well covered by English language sources opening up global perspectives and new literatures Key thematic sections are designed to intersect with critical historiographies demonstrating the value of an emotions perspective to a range of areas Topical sections direct attention to the role of emotions in relations of power to intimate lives and histories of place as products of exchanges across groups and as deployed by new technologies and medias The concepts of globalisation and modernity run through the volume acting as foils for comparison and analytical tools The Routledge History of Emotions in the Modern World is the perfect resource for all students and scholars interested in the history of emotions across the world from 1700 **The Work and Play of the Mind in the Information Age** Phillip Kalantzis-Cope,2017-09-23 This book tells a series of living stories about a domain of social activity the work and play of the mind in a particular historical epoch the information age The stories concern political processes and movements as varied as the World Trade Organization s Trade Related Aspects of Intellectual Property Rights China s Great Firewall practices of image sharing in social media Occupy Wall Street The Arab Spring The Alt Right and the use of geographical indications by indigenous peoples and farmers to defend their lifestyles In its theoretical analysis the

The Routledge Companion to the Contemporary Musical Jessica Sternfeld, Elizabeth L.

Wollman, 2019-08-16 The Routledge Companion to the Contemporary Musical is dedicated to the musical's evolving relationship to American culture in the late twentieth and early twenty-first centuries In the past decade and a half international scholars from an ever-widening number of disciplines and specializations have been actively contributing to the interdisciplinary field of musical theater studies Musicals have served not only to mirror the sociopolitical economic and cultural tenor of the times but have helped shape and influence it in America and across the globe a genre that may seem at first glance light-hearted and escapist serves also as a bold commentary on society Forty-four essays examine the contemporary musical as an ever-shifting product of an ever-changing culture This volume sheds new light on the American musical as a thriving contemporary performing arts genre one that could have died out in the post-Tin Pan Alley era but instead has managed to remain culturally viable and influential in part by newly embracing a series of complex contradictions At present the American musical is a live localized old-fashioned genre that has simultaneously developed into an increasingly globalized tech-savvy intensely mediated mass entertainment form Similarly as it has become increasingly international in its scope and appeal the stage musical has also become more firmly rooted to Broadway the idea if not the place and thus branded as a quintessentially American entertainment

Reckoning with Social Media Aleena Chia, Ana Jorge, Tero Karppi, 2021-11-04 Once celebrated for connecting people and circulating ideas social media are facing mounting criticisms about their anticompetitive reach addictive design and toxicity to democracy Known cumulatively as the techlash journalists users and politicians are asking social media platforms to account for being too big too engaging and too unruly In the age of the techlash strategies to regulate how platforms operate technically economically and legally are often stacked against individual tactics to manage the effects of social media by disconnecting from them These disconnection practices from restricting screen time and detoxing from device use to deleting apps and accounts often reinforce rather than confront the ways social media organize everyday life and society Reckoning with Social Media challenges the prevailing critique of social media that pits small gestures against big changes that either celebrates personal transformation or champions structural reformation This edited volume reframes evaluative claims about disconnection practices as either restorative or reformative of current social media systems by beginning where other studies conclude the ambivalence commodification and complicity of separating from social media

Memory Unbound Lucy Bond, Stef Craps, Pieter Vermeulen, 2016-11-01 Though still a relatively young field memory studies has undergone significant transformations since it first coalesced as an area of inquiry Increasingly scholars understand memory to be a fluid dynamic unbound phenomenon a process rather than a reified object Embodying just such an elastic approach this state of the field collection systematically explores the transcultural transgenerational transmedial and transdisciplinary dimensions of memory four key dynamics that have sometimes been studied in isolation but never in such an integrated manner Memory Unbound places leading researchers in conversation with emerging voices in the field to recast our understanding of memory's distinctive variability
