**Michele Kaschub, Janice P. Smith**

## **Mixcraft 5 Studio User Manual:**

**Teaching Music Improvisation with Technology** Michael Fein, 2017-02-03 Incorporating technology in music classrooms can take the mystery out of improvisation What music technology does is establish a strong foundation for chord scale phrase ear training and listening exercises creating a solid backdrop for student expression As author and educator Mike Fein shows technology is a valuable tool that can be used effectively to supplement student practice time while also developing the skills necessary to become a proficient improviser Complete with notated exercises accompaniment tracks and listening resources this book gives teachers methods to set their students free to make mistakes and to develop their own ear for improvisation at their own pace Broken down into significant areas of music technology each chapter focuses on developing a new skill and guides readers to tangible outcomes with the assistance of hands on activities that can be immediately implemented into the classroom In addition to these hands on activities each chapter provides the reader with an iPad Connection to various iOS applications which allows teachers and students another albeit significantly less expensive medium through which to learn share and create art This book will appeal to music educators of students in grades K 12 It will serve collegiate music education courses secondarily and will also appeal to those music educators who work with improvisation and technology

**Alfred's Music Tech 101** Brian Laakso, 2015-03-25 A Modern Music Production Course That Makes Basic Music Technology Fun A perfect approach for students with a passion for music outside of traditional programs Alfred's Music Tech 101 Teacher's Handbook correlates to Alfred's Music Tech 101 which covers the basics of music technology without heavy technical reading using plain English explanations No musical experience is required and classroom tested course material has been developed through years of student feedback Includes correlating interactive media to stream or download plus a corresponding website with teacher resources and updates No musical experience required Studies on producing music using modern techniques for college and high school students A perfect approach for students with a passion for music outside of traditional programs Cross platform approach to technology applicable to any software used for music production Great for students with musical goals outside the classroom Covers the basics of music technology without heavy technical reading using plain English explanations Simple and straightforward information reinforced with projects and assessments Classroom tested course material developed through years of student feedback Includes correlating interactive media to stream or download Corresponding website with teachers resources and updates
