edTPA while preparing their pre service teachers for this high stakes teacher exam The adoption of nationalized teacher performance exams has raised concerns about the influence of corporate interests in teacher education the objectivity of nationalized teaching standards and ultimately the overarching political and economic interests shaping the process format and nature of assessment itself Through an arc of scholarship from various perspectives this book explores a range of questions about the goals and interests at work in the roll out of the edTPA assessment and gives voice to those most affected by these policy changes teacher educators and teacher education students **The Parent Trap** Nate G. Hilger,2022-04-26

How parents have been set up to fail and why helping them succeed is the key to achieving a fair and prosperous society Few people realize that raising children is the single largest industry in the United States Yet this vital work receives little political support and its primary workers parents labor in isolation If they ask for help they are made to feel inadequate there is no centralized organization to represent their interests and there is virtually nothing spent on research and development to help them achieve their goals It s almost as if parents are set up to fail and the result is lost opportunities that limit children s success and make us all worse off In *The Parent Trap* Nate Hilger combines cutting edge social science research revealing historical case studies and on the ground investigation to recast parenting as the hidden crucible of inequality Parents are expected not only to care for their children but to help them develop the skills they will need to thrive in today s socioeconomic reality but most parents including even the most caring parents on the planet are not trained in skill development and lack the resources to get help How do we fix this The solution Hilger argues is to ask less of parents not more America should consider child development a public investment with a monumental payoff We need a program like Medicare call it Familycare to drive this investment To make it happen parents need to organize to wield their political power on behalf of children who will always be the largest bloc of disenfranchised people in this country *The Parent Trap* exposes the true costs of our society s unrealistic expectations around parenting and lays out a profoundly hopeful blueprint for reform *Dairy Production and Processing* John R. manner On the other hand cortical interneurons are generated in the medial and caudal ganglionic eminence in the ventral telencephalon and follow long tangential migratory paths into the cortex Defects in these migration processes result in abnormalities in the cortical layer structure and neuronal networks which may cause various neurological and psychiatric conditions such as epilepsy and schizophrenia Accordingly besides basic scientific interest elucidation of the mechanism of neuronal migration is essential for understanding the pathogenesis of these diseases This Research Topic includes a series of articles ranging from the basic mechanism of neocortical development to the malformation and evolution of the neocortex We do hope that the present ebook will further stimulate the interest in the fascinating investigations of neuronal migration and corticogenesis
