Employee Training And Development 5th Edition:

Employee Training and Development Raymond A. Noe, 2012-10-01 Raymond Noe's *Employee Training and Development* sets the standard in this course area. First introduced in 1998, ETD became the market defining text within 6 months of publication. Its popularity is due to its lively writing style and relevant examples of the most up to date developments in training research and practice including the strategic role of training and the use of new technologies in training. *Employee Training and Development* 6th edition strikes a balance between research and real company practices. It provides students with a solid background in the fundamentals of training and development such as needs assessment, transfer of training, learning environment design, methods and evaluation. To help students better understand the relationship between the main elements of the book, the book is now organized into five different parts. Part I focuses on the context for training and development and includes a chapter devoted to strategic training. Part II includes coverage related to the fundamentals of designing training programs. Chapters in Part II focus on needs assessment, learning theories and program design, transfer of training and training evaluation. Part III focuses on training and development methods and includes chapters devoted to traditional training methods, e-learning and the use of technology in training, employee development and special issues in employee development such as managing diversity, succession planning and cross cultural preparation. Chapters in Part IV cover career issues and how companies manage careers as well as challenges in career management such as dealing with work life conflict, retirement and socialization. Finally, Part V provides a look at the future of training and development.

Key Tools for Human Resource Management (Collection) Steven Director, Wayne Cascio, John Boudreau, 2013-08-08 HR managers are under intense pressure to become strategic business partners. Many unfortunately lack the technical skills in financial analysis to succeed in this role. Now respected HR management educator Dr. Steven Director addresses this skill gap head on. Writing from HR's viewpoint, Director covers everything mid level and senior level HR professionals need to know to formulate, model and evaluate their HR initiatives from a financial and business perspective. Drawing on his unsurpassed expertise working with HR executives, he walks through each crucial financial issue associated with strategic talent management including the quantifiable links between workforces and business value, the cost/benefit analysis of HR and strategic financial initiatives and specific issues related to total rewards programs. Unlike finance books for non-financial managers, *Financial Analysis for HR Managers* focuses entirely on core HR issues. More than ever before, HR practitioners must empirically demonstrate a clear link between their practices and firm performance. In *Investing in People*, Wayne F. Cascio and John W. Boudreau show exactly how to choose, implement and use metrics to improve decision making, optimize organizational effectiveness and maximize the value of HR investments. They provide powerful techniques for looking inside the HR black box, implementing human capital metrics that track the effectiveness of talent policies and practices, demonstrating the logical connections to financial and line of business and using HR metrics to drive more effective
