

Energy Forces & Changes Simulation

<https://phet.colorado.edu/en/simulation/energy-forces-and-changes>

Before simulation, give students advance "view" around different forms of energy and the changes between them using various diagrams below. Then ask students to work with a partner where you can easily observe energy changes, observe the conversion of energy from energy generation and management throughout.

Complete "What energy forces?" slide that describes the forces that lead the conversion, utilization of PWT's power while the plant is in operation.

Click on the "Energy Conversion" slide that will show all the energy flows. The user profile like "Energy" transfers from the power plant to power energy, will be visible throughout the process.
