Army Air Forces,1940 **Contemporary Architecture and the Digital Design Process** Peter Szalapaj,2014-04-23 Contemporary Architecture and the Digital Design Process introduces the reader to new developments in the computer modelling of design form in contemporary architectural practice through a series of detailed case studies The book illustrates how evolving design practices use and exploit the potential of new computing technologies in a wide range of areas and application A central thesis of this book is that technology follows design demand rather than design adjusting to available new technology Designers are not merely passive recipients of prescribed computing tools and techniques Instead they are increasingly able to express their intuitive design ideas through the rational medium of computing The book features several contemporary building projects each of which introduces a range of CAD and computing issues based upon the work of creative architectural and engineering design practices These include the offices of Frank O Gehry Peter Cook and Colin Fournier Anthony Hunt Associates Peter Hubner Szyskowitz Kowalski and Faulkner Brown All these examples show what architects need to know and the skills they need to acquire to use advanced CAD technology **Captain de Havilland's Moth** Alexander Norman,2025-02-06 A nostalgic celebration of the golden age of aviation and the iconic DH60 Moth in its centenary year Vivid and entertaining TLS A wonderfully affecting highly entertaining at times elegiac account of a legendary aircraft JOHN NICHOL A joy Alexander Norman brings to life a golden era in aviation history in such a vivid and entertaining way ROWLAND WHITE The most iconic of all light aircraft the DH60 Moth was the brain child of Geoffrey de Havilland visionary son of an angry and disappointed Victorian clergyman A successful designer of military aircraft Geoffrey dreamed of doing for aircraft what Ford had done for cars The emergence of

his Moth in February 1925 marked the beginning of an important but neglected episode in British social history the craze for flying which gripped a war weary world for more than a decade The most successful aircraft of its era the Moth was the one in which people had the greatest adventures And it was the Moth which showed that flying was safe practical and potentially open to all True many early Mothists were uber privileged The Prince of Wales had one as did his brother the Duke of Gloucester Beryl Markham who had affairs with both learned to fly in a Moth But Laura Ingalls who did 980 successive loops in hers Aspy Engineer the Indian schoolboy who won the Aga Khan Trophy in his and Amy Johnson the typist from Hull who flew hers to Australia showed that to be a pilot you didn't need to be a superhero or super wealthy Just a little mad perhaps Captain de Havilland's Moth brings to life a golden age in aviation and an astonishing cast of characters whose courage determination and epic eccentricity is shown in the light of what it is actually like to fly these remarkable aeroplanes
