Understanding and Evaluating Research Sue L. T. McGregor, 2017-10-25 *Understanding and Evaluating Research A Critical Guide* shows students how to be critical consumers of research and to appreciate the power of methodology as it shapes the research question the use of theory in the study the methods used and how the outcomes are reported The book starts with what it means to be a critical and uncritical reader of research followed by a detailed chapter on methodology and then proceeds to a discussion of each component of a research article as it is informed by the methodology The book

encourages readers to select an article from their discipline learning along the way how to assess each component of the article and come to a judgment of its rigor or quality as a scholarly report Climate Consciousness and Environmental Activism in Composition Joseph R. Lease, 2020-02-18 Now more than ever in a time when Americans still do not believe that humans are the primary cause of Earth's climate change crisis the burden on educators to inform challenge and motivate students about sustainability is greater than it ever has been On college campuses writing intensive courses often located within First Year or General Education curricula are an ideal place to take up this charge because of the flexibility of their content and the high volume of students that they reach In this volume a varied group of composition instructors with wide ranges and types of experiences provides best practices for bringing issues surrounding climate change into the writing classroom From literature based composition and creative writing courses to design thinking workshops to seminars against sustainability the authors in this volume lay out a multitude of possibilities for blending writing and environmental concerns that fellow practitioners can easily adopt or modify for their own use Native Speakers and Native Users Alan Davies, 2013-08-01 Native speakers and native users are terms traditionally used to differentiate between speakers who have acquired a language from birth and speakers who have learnt a second language This book highlights the problems associated with making such a clear cut distinction By analysing a range of literature language uses and proficiency tests Davies argues that there is no significant difference between native speakers and native users and emphasises the importance of the Standard Language Whilst individual native speakers may vary considerably the academic construct of the native speaker is isomorphic with the Standard Language which is available to both native speakers and native users through education In this book Davies explores the native user as a second language speaker who uses language with native speaker competence This book will be of significant interest to students and researchers working in the fields of second language acquisition and applied linguistics
