The Culinary Triangle Gerald Chen, 2014-03-17 My Philosophy For some people cooking may not seem to be something

important or a thing to appreciate but cooking for me is an art In my culinary world there are always three basic elements that can help you produce an amazing dish There are many kinds of herbs in the world such as basil parsley oregano etc Many home cooks think that the more herbs they put the more flavors there will be However no matter how much herbs you add if you forget to add salt and pepper your dish will smell good but it wont taste well Balanced seasoning and balanced flavors are the keys to creating a good dish In this cookbook I will show you the importance of both salt and pepper and of course a suitable amount of herbs Fresh ingredients are also very important If you are not using fresh ingredients no matter how experienced or skilled you are everything you cook will become bland Also your cooking mood can affect your dish If you cook with your heart the one who eats your dish can feel it If you use an angry mood to cook your dish people who eat it can feel the anger behind the food and it wouldnt taste good to them Just like the fire triangle there are always three elements fuel oxygen and heat for setting a fire In this case the culinary triangle salt and pepper fresh ingredients and your passion is the basics for cooking a stunning dish
