Handbook of Hyper-real Religions, 2012-03-28 Today a new trend is clearly discernable that of hyper real religions. These are innovative religions and spiritualities that mix elements of religious traditions with popular culture. If we imagine a spectrum of intensity of the merging of popular culture with religion we might find at one end groups practicing Jediism appropriated from the Star Wars movies Matrixism from the Matrix trilogy and neo pagan rites based on stories from The Lord of the Rings and the Harry Potter series. At the other end of the spectrum members of mainstream religions such as Christianity can be influenced or inspired by for example The Da Vinci Code. Through various case studies this book studies the on and off line religious spiritual consumption of these narratives through a social scientific approach.
