Chapter 2: Environmental Science

Section 2.1: Environmental Science

Directions: Read the information from pages 44-49 and complete the following.

1. The scientific method is a series of steps used to investigate a problem and the scientific method is a systematic approach to research.
2. The first step in the scientific method is to ask a question that leads to a hypothesis.
3. The hypothesis is a statement that can be tested by experimentation or observation.
4. The next step is to design an experiment to test the hypothesis. This involves identifying the variables that will be tested.
5. The experimental group is the group that receives the treatment, while the control group does not.
6. The results of the experiment are then analyzed to see if they support the hypothesis.
7. If the results support the hypothesis, the hypothesis is accepted. If not, it is rejected and a new hypothesis is developed.
8. The scientific method is a logical process that allows scientists to investigate the natural world.
