and even their identities Judith Milner and Patrick O Byrne compare and contrast solution talk with other more traditional or problem oriented approaches to illustrate how a collaborative co constructive and empowering way of working may help clients to meet their goals quickly painlessly and with long lasting effects They outline the philosophy practice principles and specific techniques of solution talk and discuss what to do if no immediate progress is apparent Through detailed case examples they illustrate how the approach may be used in client work with a wide range of issues connected to family life school and work health personal safety and leisure Brief Counselling Narratives and Solutions will be an essential text for all trainees and practitioners in counselling psychotherapy and other health related professions interested in brief therapeutic approaches and working creatively with clients Corpus-based Analyses of the Problem-solution Pattern Lynne

Flowerdew,2008 This book reports research on the Problem Solution rhetorical pattern which has to date received very little attention in corpus based studies Insights from genre analysis and systemic functional grammar are also applied to the analysis of the Problem Solution pattern thus moving towards a more multi faceted analysis of corpus data The pattern is investigated in two specialized corpora of technically oriented report writing a professional corpus and a student corpus using a key word and key key word analysis Phraseological analyses of key words in both corpora are presented Data show that students writing lacks a range of lexico grammatical patternings for expressing the Problem and Solution elements of the pattern The book concludes with some pedagogic implications and applications of the findings Suggested concordancing activities are discussed within the context of key issues in the field of data driven learning **Selected Solutions for**
