EBOOK: What Works in Inclusion? Chris Boyle, Keith Topping, 2012-09-16 School inclusion is a perennially popular yet polemic topic in most countries. This timely book explores what is known about inclusion, highlighting outstanding examples of inclusion to provide a complete overview of successful inclusion. The book concentrates on how to make inclusion work from the view of internationally established practitioners in the field of teacher education, with a focus on what variables are likely to make a difference in practice. What Works in Inclusion covers three key aspects: Theories of inclusive education; Examples of how inclusion can be encouraged and facilitated; What prevents inclusion from being successful. Drawing on case studies from a wide range of countries including USA, Australia, UK, Canada, and Italy, there is focus on the positive aspects of inclusion, how it can work, and what actually works, helping you understand successful aspects of inclusion as well as developing an understanding of how inclusive education can best be implemented. In addition to the research-based accounts of how to make inclusion work, the book considers the difficulties that can arise in attempting to achieve successful inclusion and how such barriers can be overcome to ensure a successful inclusive experience for both teachers and students. This is a key text for all serving and aspiring teachers and SENCOs, as well as those interested in inclusion and SEN in schools, and will inform and challenge in equal measure. Contributors: Adrian F. Ashman, Robert Conway, Joanne Deppeler, Roberta Fadda, Laurel M. Garrick, Duhaney Fraser, Lauchlan Margo, Mastropieri Kim M. Michaud, Brahm Norwich, Petra Ponte, Diane Richler, Richard Rose, Spencer J. Salend, Tom Scruggs, Roger Slee, Jacqueline Thousand, Richard Villa, Catharine Whittaker. Focusing on both theory and practice, this timely volume provides a refreshing set of challenges to all of us who are committed to the development of more inclusive education systems. The presentation of ideas and experiences from different countries is particularly powerful in this respect. Professor Mel Ainscow, University of Manchester, UK. Boyle and Topping provide a collection of salient chapters on critical issues pertaining to inclusive education from a collection of world leaders in the field. This book is scholarly, current, and research-based yet at the same time readable and informative for a wide audience of university teachers and their students, along with practicing educators in the field. Recognizing that inclusive education is an ongoing project, this book nevertheless provides a rigorous gestalt of inclusive education theory, practical advice for implementation, and potential barriers to success.
