

## WORKPLACE SAFETY

If students need assistance when using the restroom, they should be accompanied by a parent, not a KUMON employee. An employee should never be in a closed space one-on-one with a student. This includes the restroom and back staff room.

Younger students will at times rock back and forth on their stools. Kindly instruct them to rest on all four legs of the stool, so as to avoid injury.

## OPEN LINES OF COMMUNICATION

Assistants should take care to make their supervisor aware of...

- Students who are acting up or unproductive (not feeling well, throwing a fit, having an off day) immediately. If she is otherwise occupied, wait a short time and inform her clearly of the issue
- Very low scores (6s/7s across the board) and the related topic the student is struggling with (such as long division, identifying the subject and predicate, understanding the past progressive tense, etc.)
  - This can be done efficiently by writing a brief note down for her, paperclipping it to that specific homework/classwork set and bringing it up as the classroom is closing or during a lull

## DINOSAURS

General Attitude/Overcrowding: Engage with them warmly from the moment they walk in, hopefully greeting them by name. If you and the other front-row assistants already have two students working at your station, ask an assistant from the back to sit and work with the student. If the back is too busy to lend a hand, temporarily seat the student with you. The best-case scenario in this tight spot is for your two other students to be working to be working on math and reading, while you start your third student on math first, not reading. You only want to be guiding very young students through their reading assignments one at a time, as attentive observation and detailed feedback are necessary in developing their skills.

### READING:

Always read the instructions to them in full.
