

KEEPING YOUR CAR WHERE IT CAN BE SEEN

Try to keep your vehicle where it can be seen. You cannot always be sure other drivers will see you, but you can avoid putting your vehicle where they cannot see it. One common mistake is driving in another driver's blind spot.

- Try to avoid driving on either side slightly to the rear of another vehicle. Either speed up or drop back, but do not remain in another driver's blind spot.
- When passing another vehicle, pass through the other driver's blind spot as quickly as you can. The longer you stay there, the longer you are in danger.

CHECKING THE SPEEDOMETER

Glance at the speedometer about once a minute to ensure you are driving at a safe and legal speed. This should become a habit.

BACKING

Backing requires extra caution because it is difficult to see behind your vehicle.

Here are some rules you should follow whenever you have to back your vehicle.

- Check behind your vehicle before you get in. Children or small objects are difficult to see from the driver's seat.

- When backing straight to the rear or to the right, look over your right shoulder directly through the rear window. When backing to your left, look over your left shoulder. Do not depend on your mirrors.
- Back slowly. Your vehicle is more difficult to control when you are backing. Continue looking back until you come to a complete stop.

Whenever possible, avoid backing into traffic; or, if possible, use a person outside the car to help you back.
