## **Mathematics N6 Previous Question Papers Memorandum:**

**U.S. Government Research & Development Reports** ,1966      **U.S. Government Research & Development Reports** ,1970-10      *Scientific and Technical Aerospace Reports* ,1987 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database      **Government Reports Announcements & Index** ,1993      **Catalogs of the Scripps Institution of Oceanography Library** Scripps Institution of Oceanography. Library,1980      Bibliography of Technical Reports ,1951      Bounded Littlewood Identities Eric M. Rains,S. Ole Warnaar,2021-07-21 We describe a method based on the theory of Macdonald Koornwinder polynomials for proving bounded Littlewood identities Our approach provides an alternative to Macdonald s partial fraction technique and results in the first examples of bounded Littlewood identities for Macdonald polynomials These identities which take the form of decomposition formulas for Macdonald polynomials of type R S in terms of ordinary Macdonald polynomials are q t analogues of known branching formulas for characters of the symplectic orthogonal and special orthogonal groups In the classical limit our method implies that MacMahon s famous ex conjecture for the generating function of symmetric plane partitions in a box follows from the identification of  $GL_n \times R \times O_n$  as a Gelfand pair As further applications we obtain combinatorial formulas for characters of affine Lie algebras Rogers Ramanujan identities for affine Lie algebras complementing recent results of Griffin et al and quadratic transformation formulas for Kaneko Macdonald type basic hypergeometric series      **The National Union Catalog, Pre-1956 Imprints** Library of Congress,American Library Association. Committee on Resources of American Libraries.
