The Sutherland Inquiry Stewart R. Sutherland, Great Britain. Department for Children, Schools and Families, 2008 The Sutherland Inquiry HCP 62 session 2008 09 ISBN 9780102958393 is an independent inquiry remitted by the Office of the Qualifications and Examinations Regulator Ofqual and the Secretary of State for Children Schools and Families into the delivery of the National Curriculum tests in 2008 In July 2008 1 2 million pupils heard that their National Curriculum test results would be delayed The test delivery service represented a failure in customer delivery service to the pupils schools and also the markers upon whom the National Curriculum testing regime relies The primary responsibility must therefore rest with the American organisation ETS Global BV ETS which won the public contract to deliver the tests and failed its customers This report examines how this organisation secured the contract what its plans were and why its systems and process as a whole were not properly tested The report will also describe how

ETS's systems failed during the test delivery process. There was also a failure on the part of the Government's Non-Departmental Public Body the Qualifications and Curriculum Authority to deliver its remit. The report also sets out the procurement process that QCA used to select its delivery supplier ETS and how it managed the contract. The report sets out a number of recommendations on how test delivery can improve in future years and has set out a number of key priorities including that the delivery process of the National Curriculum tests should be modernised and improved in consultation with the marking community including piloting online marking that whatever process is used should be thoroughly piloted and project managed to ensure schools and pupils get their results on time that the customer service provided to markers must be vastly improved to ensure that they are properly supported and are able to access up to date information. [Key Maths GCSE](#) Peter Sherran, 2002-09-10

This resource has been developed to provide additional support for delivering and supporting ICT at GCSE. Linked to Key Maths it can be also be used together with other resources. Each program contains a range of self contained activities that do not require a detailed understanding of the software. **National 5 Maths:**

Primary Professional Studies Alice Hansen, 2011-03-24 The changing landscape of primary teaching requires trainees to consider learning and teaching in new ways. This new book supports trainee teachers working towards primary QTS in all aspects of primary professional studies. Exploring the curriculum, the developing child, the developing teacher and teaching skills, the text offers in depth coverage of all aspects of teaching and learning alongside practical teaching suggestions. Chapters on inclusion, teacher identity and the wider school community consider key issues in teaching and learning today. Core teaching skills such as assessment and behaviour management are covered and interactive features link theory to practice. *Teaching Mathematics* Pamela Cowan, 2006-02-13 A practical introduction to Maths teaching designed specifically for beginning teachers in primary and secondary schools. It brings together the latest DfES and TTA guidelines and requirements with authoritative guidance ensuring that readers feel confident about how to approach their role as a teacher. This book explores key issues in maths teaching today including planning and classroom management, assessment, recording and reporting information and communication technology, investigative mathematics, equal opportunities, special needs and differentiation, key skills and alternative mathematics qualifications, being an effective maths teacher, personal and professional development in the early stages of a teaching career.
