cardiac disorders Internationally recognised author team More than 700 images and illustrations Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2004 Christian Barillot, David R. Haynor, Pierre Hellier, 2004-09-20 The 7th International Conference on Medical Imaging and Computer Assisted Intervention MICCAI 2004 was held in Saint Malo Brittany France at the Palais du Grand Large conference center September 26-29 2004 The purpose to host MICCAI 2004 was strongly encouraged and supported by IRISA Rennes IRISA is a publicly funded national research laboratory with a staff of 370 including 150 full time research scientists or teaching research scientists and 115 postgraduate students INRIA the CNRS and the University of Rennes 1 are all partners in this mixed research unit and all three organizations were helpful in supporting MICCAI MICCAI has become a premier international conference with in depth persons on the multidisciplinary fields of medical image computing computer assisted intervention and medical robotics The conference brings together clinicians biological scientists computer scientists engineers physicists and other researchers and offers them a forum to exchange ideas in these exciting and rapidly growing fields The impact of MICCAI increases each year and the quality and quantity of submitted papers this year was very impressive We received a record 516 full submissions 8 pages in length and 101 short communications 2 pages from 36 different countries and 5 continents see figures below All submissions were reviewed by up to 4 external reviewers from the Scientific Review Committee and a primary reviewer from the Program Committee All reviews were then considered by the MICCAI 2004 Program Committee resulting in the acceptance of 235 full papers and 33 short communications Manual of Cardiovascular Disease in Women Angela H.E.M. Maas, Eva Gerds, 2024-09-27 This manual defines sex and gender differences in cardiovascular disease and how they have become an important topic within most subspecialties in the field of cardiology It is now evident that sex differences in biology and lifestyle influence the pathophysiology of heart disease Consequently risk factors for cardiac disease are modified by sex and gender and women and men develop partly different variants of the same heart diseases These facts profoundly influence prevention and management in clinical practice Good medical practice demands a more tailored and personal care for each individual patient In addition the life course of women has a few unique phases related to hormonal changes in pregnancy and after menopause that also interact with individual risk and the development of co morbidities As heart disease is now the number one cause of death in women worldwide a more specific attention to cardiovascular disease in women is justified Most important advances in gender specific knowledge are related to ischemic heart disease and its traditional and sex specific risk factors Diagnostic pathways have changed coronary angiography is no longer the gold standard that it used to be Recent guidelines and position papers have paid attention to these new insights whereas educational programs urgently need to be adapted The ongoing paradigm shift in cardiology needs to be updated for the clinician in an easy and accessible manner Other important topics in which sex and gender differences have been elaborated are heart failure atrial fibrillation aortic valve disease and its treatment cardiac rehabilitation co morbidities cardiotoxicity in cancer treatment and neurology

In addition female specific risk factors and socio economic factors are relevant to women s cardiovascular health We will invite the best EU experts in this field to contribute to the various chapters Manual of Cardiovascular Disease in Women has an educational role for established cardiologists and vascular specialists in training nurses and other allied professionals It represents an update on the most recent insights in sex and gender differences in cardiovascular health with a focus on women s cardiovascular diseases Additional questions via app Download the Springer Nature Flashcards app for free and use exclusive additional material to test your knowledge
