### PLAYGROUND DESIGNER

 PERFORMANCE TASK

**OVERVIEW**   
You will step into the shoes of a playground designer. Your school has decided to build a new playground with a unique geometric structure. As the lead designer, you have been tasked with determining the measures of various angles to ensure the safety and functionality of the design.

**TASK #1**   
Imagine you are designing a new playground for your school. The playground will have a unique geometric structure, and you have been tasked with determining the measures of various angles to ensure the safety and functionality of the design. In the playground design, there are four angles labeled as A, B, C, and D. You know that:  
- Angle A is a right angle (90 degrees).  
- Angle B is a supplementary angle to Angle C.  
- Angle D is a complementary angle to Angle C.  
To find the measures of angles B, C, and D, you need to set up and solve equations based on the given information.

Write an equation to find each angle.

**TASK #2**   
Solve each equation that you wrote in task #1 to find the measure of each angle. Remember, Angle C is 40 degrees.

### PLAYGROUND DESIGNER

 PERFORMANCE TASK

**TASK #3**   
Now that you have found the measures of angles B, C, and D, determine if they add up to form a complete angle (360 degrees) or not. Explain your findings.

**TASK #4**   
Within the playground structure, there are vertical angles formed. Identify the pairs of vertical angles and calculate their measures based on the information you have.

Bruner,2006-09-27 Jerome Bruner is one of the best known and most influential psychologists of the twentieth century His theories about cognitive development dominate psychology around the world today but it is in the field of education where his influence has been especially felt In this two volume set Bruner has selected

and assembled his most important writings about education Volume I spans the twenty years from 1957 to 1978 and Volume II covers 1979 to 2006 Volume I starts with a specially written introduction by Bruner in which he gives an overview of the 1957 1978 years and contextualises his selection of papers The articles and chapters then reveal the thinking the concepts and the empirical research of that time that have made Bruner one of the most respected and cited educational authorities of our time Executive Function and Education Mariëtte Huizinga,Dieter Baeyens,Jacob A. Burack,2018-09-21

Executive function is an umbrella term for various cognitive processes that are central to goal directed behavior thoughts and emotions These processes are especially important in novel or demanding situations which require a rapid and flexible adjustment of behavior to the changing demands of the environment The development of executive function relies on the maturation of associated brain regions as well as on stimulation in the child s social contexts especially the home and school Over the past decade the term executive function has become a buzzword in the field of education as both researchers and educators underscore the importance of skills like goal setting planning and organizing in academic success Accordingly in initiating this Research Topic and eBook our goal was to provide a forum for state of the art theoretical and empirical work on this that both facilitates communication among researchers from diverse fields and provides a theoretically sound source of information for educators The contributors to this volume who hail from several different countries in Europe and North America have certainly accomplished this goal in their nuanced and cutting edge depictions of the complex links among various executive function components and educational success **Chubby Chan's Best Horriday Ever** Stefan
