Teaching Reading Comprehension to English Learners in Secondary Schools: A Research-Based Approach Cekiso, Madoda, Olifant, Florence, Mokhtari, Kouider, 2025-04-23 Teaching reading comprehension to English learners ELs in secondary schools presents unique challenges as these students must navigate the complexities of academic texts and the intricacies of language acquisition. Effective instruction requires a research-based approach that considers the diverse linguistic, cultural, and cognitive backgrounds of these learners. Recent studies highlight the importance of integrating strategies that build both language proficiency and content knowledge, essential for helping ELs develop the skills needed to comprehend complex materials. Fostering metacognitive awareness through strategies like summarizing, questioning, and making connections can empower students to become active and strategic readers. This approach recognizes the need for a supportive, inclusive classroom environment that encourages language development while promoting academic achievement in content areas. Further research may help educators provide English learners with the tools to thrive as capable readers in secondary school. *Teaching Reading Comprehension to English Learners in Secondary School: A Research-Based Approach* explores various aspects of teaching reading comprehension to English Second Language (ESL) learners in secondary schools. It examines current challenges and evidence-based strategies in reading comprehension. This book covers topics such as language learning, reading strategies, and teacher training and is a useful resource for academicians, researchers, and scientists. **Resources in Education**, 1994 **African Books in Print**, 1978 *South Africa Can Work* Frans Rautenbach, 2017-08-18 What will it take to turn South Africa around? In this insightful and provocative book, Frans Rautenbach proposes a complete overhaul of policy thinking and provides fresh arguments that effectively address South Africa's unemployment, race problems, and lack of education. Rautenbach examines the fundamental problem of rent-seeking, to which he proposes two antidotes: the free market and decentralisation of government. Along the way, he tackles holy cows such as affirmative action, trade unions, labour law, and welfare payments. He also addresses contentious topics such as racism, white privilege, political correctness, state funding of higher education, and mounting evidence that trade unions substantially suppress employment growth. Written by a labour lawyer with a proven track record in a range of policy issues, *South Africa Can Work* speaks effectively to a cross-section of readers of all disciplines and brings sorely needed good news. *School Statistics*, 1994 *Challenges for Anthropology in the 'African Renaissance'* Association for Anthropology in Southern Africa. Conference, 2002 The publication of this collection of papers is significant for anthropology in Southern Africa and indeed the continent as a whole. Given this context, I endeavoured to obtain empirical data in the condition of anthropology in the region. *Botswana*, 1999 *Linguistics and Language Behavior Abstracts*, 2005 *Resources in Education*, 1983 *Southern African Books in Print*, 1994
