Katherine Pickering Antonova, 2020. The Essential Guide to Writing History Essays is a step-by-step guide to the typical assignments of any undergraduate or master's level history program in North America. Effective writing is a process of discovery achieved through the continual act of making choices: what to include or exclude, how to order elements, and which style to choose, each according to the author's goals and the intended audience. The book integrates reading and specialized vocabulary with writing and revision and addresses the evolving nature of digital media while teaching the terms and logic of traditional sources and the reasons for citation as well as the styles. This approach to writing not only helps students produce an effective final product and build from writing simple short essays to completing a full research thesis; it also teaches students why and how an essay is effective, empowering them to approach new writing challenges with the freedom to find their own voice. **Writing the History of Slavery**

David Stefan Doddington, Enrico Dal Lago, 2022-01-13. Exploring the major historiographical, theoretical, and methodological approaches that have shaped studies on slavery, this addition to the Writing History series highlights the varied ways that historians have approached the fluid and complex systems of human bondage, domination, and exploitation that have developed in societies across the world. The first part examines more recent attempts to place slavery in a global context, touching on contexts such as religion, empire, and capitalism. In its second part, the book looks closely at the key themes and methods that emerge as historians reckon with the dynamics of historical slavery. These range from politics, economics, and quantitative analyses to race and gender to psychohistory. History from below and many more. Throughout, examples of slavery and its impact are considered across time and place in Ancient Greece and Rome, Medieval Europe, colonial Asia, Africa, and the Americas, and trades throughout the Atlantic and Indian Oceans. Also taken into account are thinkers from antiquity to the 20th century and the impact their ideas have had on the subject and the debates that follow. This book is essential reading for students and scholars at all levels who are interested in not only the history of slavery but in how that history has come to be written and how its debates have been framed across civilizations.

A Short Guide to Writing about History Melvin E. Page, Brian J. Maxson, 2023-03-27 This widely used guide for students has long emphasized the excitement of historical discovery rooted in writing about the past This new edition continues that emphasis while also affirming the contemporary significance of the search for truth in historical writing It includes new and revised sections related to electronic technologies as well as updated examples of recent historical scholarship throughout It maintains the welcoming accessible and inclusive tone of previous editions while walking students through complex ideas and established writing standards As it has since its inception the tenth edition of A Short Guide to Writing about History helps students confront and conquer any of the challenges they might face in writing about history

Ancient India in Historical Outline Dwijendra Narayan Jha, 2025-10-27 This is the fourth revised version of the book which was first published in 1977 It surveys the major developments in India s social economic and cultural history up to the end of the ancient period and explains the rise and fall of empires with reference to their material bases It pays special attention to elements of change and continuity and gives the lie to the view that Indian society has been stagnant and changeless a view propagated by Western scholars in the heyday of British imperialism and which continues to be peddled ingeniously in our own times It analyses the changing forms of exploitation and social tensions and the role of religion and superstition in curbing them It also stresses the fact that the achievements of ancient India remarkable though they were cannot cover up the social and economic disparities which we have inherited from the past The assassination of Mahatma Gandhi and the demolition of the Baburi Masjid are two unforgettable milestones in the unfolding of the backward looking Hindu revivalist and fascist politics of contemporary India

Since both Harappa and Mohenjodaro are situated now in Pakistan the Hindu revivalists are busy locating the epicentre of the Harappan culture in the elusive Saraswati valley Some Indian historians tirelessly speak of their the Guptas rule as a golden age The truly golden age of the people does not lie in the past but in the future if at all **A Pocket Guide to Writing in History** Mary Lynn Rampolla, 2012-01-20 A Pocket Guide to Writing in History provides all the advice students need to write effectively in any history course from introductory surveys to upper level seminars in a quick reference format
