Medical Writing

Neville W. Goodman,Martin B. Edwards,Elise Langdon-Neuner,2014-08-28 Significantly expanded and updated this is an invaluable handbook for anyone seeking to improve their written communication of medical content [A Practical Guide to Scientific Writing in Chemistry](#) Andrew Terhemen Tyowua,2023-03-31 Successful completion of postgraduate studies especially PhD and career advancement in academia strongly depend on the ability to publish scientific papers or books and attract research grants However many chemical scientists find preparing scientific papers and research grant and book proposals difficult partly because of insufficient training in writing and partly because there are few practical books to enable them to learn the art This step by step practical guide is intended mainly for postgraduate students and early career researchers in chemical science and the libraries that serve them but will also be useful to other scientists Key Features

Improves the reader's chances of getting their manuscript published in chemistry journals
 Increases the likelihood of winning research grants in chemistry
 Takes a lead by the hand approach
 Contains chapters on the preparation of graphical abstracts and research highlights
 Uses sketches and other illustration styles to aid mental visualization of concepts
 Contains practical examples taken from published papers and successful research grant proposals

How to Design, Write, and Present a Successful Dissertation Proposal Elizabeth A. Wentz, 2013-10-07
 How to Design, Write and Present a Successful Dissertation Proposal by Elizabeth A. Wentz is essential reading for any graduate student entering the dissertation process in the social or behavioral sciences. The book addresses the importance of ethical scientific research, developing your curriculum vitae, effective reading and writing, completing a literature review, conceptualizing your research idea and translating that idea into a realistic research proposal using research methods. The author also offers insight into oral presentations of the completed proposal and the final chapter presents ideas for next steps after the proposal has been presented. Taking the view that we learn by doing, the author provides Quick Tasks, Action Items and To Do List activities throughout the text that when combined, develop each piece of your research proposal. Designed primarily for quantitative or mixed methods research dissertations, this book is a valuable start-to-finish resource.
